MAKING GOOD AT SIXTY-FIVE

Don't worry about old age. A sound man is good at any age. Keep your body in good condition and you can be as hale and hearty and able to "do your bit" as when you were a young fellow.
Affections of the kidneys and bladder are among the leading causes of early or helpless age. Keep them clean and the other organs in working condition, and you will have nothing to fear.
Drive the poisonous wastes from the system and avoid uric acid accumulations. Take GOLD MEDAL Haarem Oil Capsules periodically and you will find that you are as good as the next fellow. Your spirits will be rejuvenated, your muscles strong and your mind keen enough for any task.
GOLD MEDAL Haarem Oil Capsules will do the work. But be sure to get the original imported GOLD MEDAL Haarem Oil Capsules. They are reliable and guaranteed to keep you or your money will be refunded. For sale by most druggists. In sealed packages, three sizes.

On Wednesday the student body meeting was held for the purpose of electing an editor-in-chief who will have charge of the column in the local paper devoted to high school activities. Alice Ament was elected to fill this office, and she is to be assisted by editors to be selected from each class.
The purpose of this column is to let the people of Grants Pass know of the studies, interests, and activities of the high school students that they may both work together harmoniously and understandingly for the betterment of the community.

Protection From Live Wires.
For the sure protection of linemen handling live wires a pair of gloves inside and one outside of the rubber gloves have been recommended. The woven fabric inside glove takes up perspiration and shields the rubber from the finger nails and a leather gauntlet over the rubber glove, protects from outside mechanical injury, aids in grasping tools and keeps the hands warm in winter.

HIGH SCHOOL NOTES

On Monday morning the school bells again rang, announcing the opening of the city schools after the enforced vacation. Great care is being taken to give the influenza no chance to appear. There were a few students missing from their accustomed places in the assembly room, but the majority were back and anxious to hear how the lost time was to be made up. In the groups that formed for the discussion of this weighty problem, some spoke touchingly of the Christmas holidays, while others wept when they thought of a late dismissal next spring. It has been decided that we will forego the pleasure of the Christmas holidays, having only Thanksgiving, Christmas and New Years day.

A new custom has been introduced into the school with the formation of two literary societies which will alternately give programs in the high school assembly. Each student of the school is required to belong to one of these clubs and it is required that he take part in the programs. The first program of the year will be given on December 6th by the Cleon society, and if effort or talent count for anything, will certainly be a success. Miss Lowery is the advisor for this society and Miss Dahlberg is the advisor for the other society, whose name has not yet been chosen.

The money obtained from the admission price, 15 cents for those not of the high school, and 10 cents for the students, is to be used to purchase a libeity bond.

Football talk has become a dead language among the high school students this year, girls' basketball being the only athletic game of the season. The girls have begun the season in earnest, a large number coming out for practice. Miss Lowery is their instructor, and she boasts some excellent material. The girls are going to be allowed to play other valley teams, and with their early start and hard practice, will be able to bring home all the victories.

In compliance with the state law now in effect, the boys are spending 45 minutes each day in military drill. They are under the instruction of Prof. Imel, and are making splendid progress. Officers have recently been appointed, and will hold their office until the end of each month, when they will be shifted to different positions, making it possible for them to learn the duties of the different ranks. Mr. Imel states that the boys are taking great interest in the drill, and all are trying hard for promotions.

The following are the officers chosen for this month:
Lieutenants—Dick Cramer, Royston Lacey.
Sergeants—Leroy Heston, George Riddle Jr., Harold Lundburg, George Williams, Harold Isham.
Commissary Sergeant—Wayne Bailey.

Corporals—Don Kearns, Stephen Woodin, Waldo Baker, Eugene Murphy, Arthur Close, Joe Harper.
Nor are the girls left out when it comes to physical drill. They are spending these same 45 minutes in "exhale, 1-2-3-4, inhale, 1-2-3-4," and many other difficult and health-giving exercises. Their improvement in chest expansion and carriage is noticeable. Mrs. Gunnell has charge of their exercises, and her fitness for the position has certainly been proven.

Algerian Flour Mills.
Algeria possesses some 70 or 80 flour mills, scattered throughout the three departments of Algiers, Constantine and Oran. These mills have a total of 6,000 horsepower, employ between 1,000 and 1,300 workmen, and handle daily about 1,500 metric tons of hard and soft wheat, or approximately 400,000 metric tons per annum. There are also a large number of small, primitive establishments in Algeria, which tend to disappear in competition with modern equipment.

Earnestness Welcomes.
One gets very tired of chatter sometimes. And when someone comes who is thoughtful, who is earnest, who talks that he may reveal something worth while, because he has some treasure through which the world may profit, then what a difference. How the mind throws off its staleness and freshens under the wind that cuts, maybe, as it heals. How the soul refreshes itself, how the heart takes courage and the spirit rises to meet the message—no change.
