WOULD SELL \$2,000,000,000 WORTH OF U. S. S. IN 1919

Washington, Jan. 3.—The 1919 war savings campaign will be opened actively by a nation-wide celebration on January 17, the anniversary of the birth of Benjamin Franklin.

That day will be devoted particularly, Mr. Braddock said, to the organization of thousands of war savings societies in industries, offices, business houses, churches and communities to systematize the preaching of thrift and promote the sale of \$2,000,000,000 worth of stamps during the year.

WHAT is there in community life that the payroll dollar doesn't do? It buys baby clothes—raises the children while they go to school—sustains them in turn when they reach the working age.

Thrift is a war time lesson. There can be no thrift without industry—no industry without industries. Whether the industries of Oregon grow rapidly or slowly depends on the people of Oregon. WILL YOU HELP? Will YOU "use home products"?

WOUNDED MEN RECEIVED NO PAY FOR MONTHS

Camp Lewis, Wash., Jan. 3.—New Year cheer was brought to many soldiers here by the publication of instructions from Washington that action will be immediately taken to pay all enlisted men who have not been paid in full because of the absence or loss of their service records.

The men are to be paid in full to December 31, 1918, and it is ordered that each following month they also shall be paid. Any arrears in pay then lacking because information is lacking may be obtained by the soldier applying to the auditor for the war department.

"Of course, you can support my daughter in the style to which she has been accustomed," said the weary-looking father, "but can you support her in the style to which she has been unaccustomed, but to which she feels that she is fully entitled to become accustomed?"

BOLSHEVIKI GAIN HEADWAY IN RUSSIA SAYS REPORTS

Washington, Jan. 3.—Advices to the state department today announce that returning Russian prisoners of war on coming out of Austria-Hungary and Germany are being offered 300 rubles monthly, clothing and food to join the Bolshevik Red army. According to this information few of the prisoners accept this offer and popular feeling in Russia is strongly against the Bolsheviks.

Nevertheless, the power of the Bolsheviks is reported on the increase since the recapture of Kazan and Samara from the Czechs. Their forces are now said to be concentrating on the Ukrainian front.

One prisoner declared that when typhus struck the Russian prison camps in Germany his comrades died at the rate of 500 a day. It was reported that 750,000 died in prison.

The Clove in Medicine.

Though the clove has had for centuries and still has an honorable standing in the culinary art as a condiment, it has long held a place in the distillation of liquor and in medicine. Nearly everybody knows something about oil of cloves, and most persons at one time or another have used it as a remedy or a palliative for toothache, it being a valuable local anaesthetic which has found use in professional dentistry as a means of lowering the sensitiveness of the dentine of a tooth undergoing repairs.

All Biblical Towns.

It was at Lydda, which was "nigh unto Joppa," that Peter restored Aeneas, "who had kept his bed eight years and was sick of the palsy," and it was, of course, in Joppa itself that Peter restored Tabitha to life. Here also he lodged for a time "with one Simon a tanner, whose house is by the seaside," and it was here that he saw the wonderful vision which taught him the universality of Christianity.

Accused of Bootlegging—Quite a sensation was caused throughout the city when it became known that Ray H. Toft, the money lender and broker, and W. H. Smith, the roofing contractor, well known citizens of Medford, had been arrested Tuesday, in the first alleged bootlegging case of several months, and were given preliminary hearings before Circuit Judge Calkins the same day, at the conclusion of which both were held to the grand jury, which meets the third Monday in February. —Medford Tribune.

Not the Coldest—Yesterday the Courier editor was informed that last New Year's night was the coldest the thermometer had registered in Grants Pass for eight or nine years. A glance at the official record shows that statement to be an error. On December 21, 1914, the government thermometer in this city registered 5 above zero, and for 15 days in succession there was freezing weather.

Morning Fire Alarm—A flue which caught fire at the R. W. Clarke home this morning was the cause of the fire department making a quick run. The chemical engine only was taken to the blaze. The firemen request that people state the nature of the fire when turning in an alarm. For instance, if it is only a flue burning out, the informant should so state and the firemen will take only the chemical engine, as that is quite efficient to extinguish such a blaze.

ARMY SCANDAL WILL BE AIRED IN THE SENATE

Washington, Jan. 3.—Senator New, of Indiana, will demand a complete congressional inquiry of all American army camps here and abroad. Spurred into action by the disclosures alleging shameful conditions in the concentration camp at Brest, France, where 70,000 Americans are being detained under unbelievable conditions, Secretary Baker has cabled for information. These disclosures led Senator New to announce that he would demand a full investigation. Action may come when Secretary Baker is to appear before one of the congressional committees for an appropriation to buy outright, for the government, all the cantonments and army camps in the country for permanent use of the army and for the development of universal training.
