TROOPS SAVED FROM WRECKED TRANSPORT

South Hampton, Eng., Feb. 1.—All troops aboard the American transport Narragansett which ran ashore last night on a ledge off Bembridge, at the eastern end of the Isle of Wight, have been removed by tugs and local life boats. The removal was effected while the steamer was on the ledge, despite a snow-storm and high sea.

CAN STILL BUY BONDS ON INSTALLMENT PLAN

Washington, Feb. 1.—Treasury officials explained today that although the final 30 per cent payment on the Fourth Liberty loan was due January 30, this would not affect bond purchasers who are buying from banks or other institutions on the monthly installment plan.

Owing to advance payments, only about \$40,000,000 remained to be paid to complete the \$6,989,000,000 of the Fourth loan.

A block of certificates of indebtedness originally amounting to \$641,000,000 also was redeemed January 30th, it was announced.

AT THE MOVIES

"Italy's Flaming Front"

"Italy's Flaming Front," the most impressive of all European war films yet shown in this country, is unique in the fact that it furnishes its spectators with more thrills and fewer horrors than any transcript of events in the zone of combat that has been unrolled to the public gaze.

Edited by representatives of the Italian military authorities in this country, the picture now showing at the Joy Theater has been put on in a way that gives striking evidence of rare dramatic selection and good taste. There are scores of scenes that raise the enthusiasm to fever heat, but not one that could arouse a sense of repulsion in the mind of the most impressionable.

"In placing this film before our allies in America," said Lieut. M. M. Prochet of the Sixth Italian Fortress Artillery, now representing his country's film interests in this country, "we have been guided by the desire to show the citizens of this great and friendly republic as many of the notable achievements of our military and naval forces as possible without forcing the unpleasant elements in the task of smashing the Hun into the foreground. This means that we want to place our cause before the greatest number of people possible, feeling that once Italy's aims and efforts are fully understood in America, there will be no force strong enough to break the handclasp of good-will and brotherhood now uniting the two countries. With this idea in mind, we have so arranged this picture that emphasis is given the dash and excitement of combat, and the thrill that is brought forth by the contemplation of notable engineering feats, without adding scenes of carnage and destruction likely to depress audiences unfamiliar with the stark actualities of the war against the Hun."

WANTS SUBSCRIBERS FOR NEW CERTIFICATES

San Francisco, Feb. 1.—Accompanying the announcement by Secretary of the Treasury Carter Glass that the last issue of treasury certificates of indebtedness has been oversubscribed by \$101,500 comes the call for subscriptions to a new issue of \$600,000,000 date January 30, payable July 1, 1919, and drawing interest at 4 1/2 per cent. Books will close on the offer February 6.

ELKS PLAN BUILDING OVER IN HONOLULU

Honolulu, T. H., Feb. 1.—The Honolulu lodge of Elks, No. 616, has purchased one of the finest properties on Walkiki beach, paying \$30,000 for a site on which it is planned erect a \$50,000 home. Facilities will be provided for bathing.

EXCELLENT REPORT OF JUNIOR RED CROSS

By D. W. H.

The busy fingers of the girls and boys of Josephine county, that clipped bits for comfort pillows, rolled gun rolls, knit sweaters, etc., the past 18 months for soldiers and sailors and to do their bit to gain world peace, have accomplished a great deal. They have laid aside scissors and needles, and taken up school work with a vim, for the grown ups will do most of the Red Cross work needed at present. Instructions from Seattle were received asking that all money in the hands of Junior Red Cross auxiliaries be put in the treasury of Josephine county chapter, of which each was a part.

The following report by the chapter school treasurer, Geo. Cramer, is of interest to all: High School, \$129.40; Junior High School, \$138.42; East School, \$45.89; Riverside School, \$48.28; Fourth Ward School, (one room of kindergarten age) 58 cents; county schools, \$7.35. Total, \$369.92.

The Junior High school gave \$65 to the chapter last June for refugee work. The Riverside school and Junior High and five of the rural schools collected \$18 for Red Cross magazine subscriptions. Rural schools have collected and

spent for materials for Junior Red Cross work about \$65.

The chapter school committee supervisors, teachers and the scholars can justly feel proud of the work done, when they remember Josephine county had all schools in the county organized auxiliaries and had the first organized Junior Red Cross auxiliary in the state, the first to have a publicity manager, by which all organization of schools or special work was published in local papers, therefore allowing all to know what the Junior Red Cross was doing and the city schools were first in the state to put out a public display of work accomplished. The Red Cross Bulletin has from time to time made honorable mention of the work of the Juniors in Josephine county.

BAD LUCK FISHING—BLAMES AMENT DAM

Representative Sheldon, of Jackson county, has introduced a bill in the house aimed at the Ament dam, it is said. The Ament dam has been a source of contention for many years and especially has it received the animosity of the Jackson county newspapers, which claim that it obstructs the passage of salmon to the upper river and whenever fishing is poor, fish editorials aimed at the Ament dam are expected. As a matter of fact the fishway at the dam was constructed on the plans and specifications of the fish and game commission, and when that body changed its mind a new fishway was ordered and a new fishway built according to plans supplied. On more than one occasion has a new fishway been built or the old one repaired on order of the fish commission.

The latest trouble probably arises out of the dynamiting of a wing dam by the fish warden some time ago. It is claimed by those in authority at the dam that the company was not consulted previous to the dynamiting of the wing dam and no order for repairs had been given, but that the company stood ready to follow out the orders of the commission.

Mr. Sheldon's bill makes it the duty of the fish warden, when he finds a dam in such a state of unrepair as to forbid the operation of an efficient fishway to serve notice on the owner of the dam to repair the same, and if such repairs are not made within a reasonable time it becomes the duty of the fish warden to file a complaint against the same with the fish and game commission, due notice being given to the owner of the dam.

If the fish and game commission find that the conditions forbid a free passage of the fish above the dam they are authorized to declare the same a common nuisance and instruct the fish warden to provide for the abatement of such a nuisance.

"CAN I BE CURED?" SAYS THE SUFFERER

How often have you heard that sad cry from the victims of disease. Perhaps the disorder has gone too far for help, but oftener it is just in its first stages and the pains and aches are only nature's first cries for help. Do not despair. Find out the cause and give nature all the help you can and she will repay you with health. Look after the kidneys. The kidneys are the most overworked organs of the human body, and when they fail in their work of filtering and throwing off the poison that constantly accumulates in the system everything goes wrong. GOLD MEDAL Haemum Oil Capsules will give almost immediate relief from kidney and bladder troubles and their kindred ailments. They will free your body from pain in short order. But be sure to get GOLD MEDAL. Look for the name on every box. In three sizes, sealed packages. Money refunded if they do not help you.

ALBERS SAYS HE DID NOT BET

(Continued from Page One.)

Once more Mr. Albers asserted "No."

But a few minutes later Mr. Haney called to the witness stand Horace A. Cushing, manager of Lilly & Co., who said he had had a conversation with Mr. Albers concerning the war.

"What was that conversation?" "He offered to bet me \$1,000 to 50 cents—and to loan me the 50 cents—that the kaiser could lick the world."

Fifty-two years of age, born in Hanover, Germany, he told how he worked in Portland as a dishwasher, then as a cook and baker. Later he became janitor in the McKay building and in May, 1895, he launched the Schneider-Albers Milling company. His rapid rise to the head of

one of the largest milling concerns on the Pacific coast was then described.

"Have you at any time since you have been in America been connected with any official or agent of the German government?" asked John McCourt.

"I have not," replied the witness. "What did you do?" his counsel queried him.

"I hurried back to my country as fast as I could."

"What do you mean by 'my country'?"

"I mean the United States."

Back of This Bank's Success

has always prevailed hard and conscientious work on the part of its Officers and Directors—a willingness to aid and advise with its depositors, also the necessary principle of SAFETY in each transaction. If without a banking home, we'll welcome your account.

THE FIRST NATIONAL BANK OF SOUTHERN OREGON

An Opportunity to Make Money

The best posted men on financial matters believe that after a few months of readjustment our country will enjoy several years of prosperity.

During the year we want to assist the business man and the farmer to increase his business or the production on his farm.

Come in and talk your money problems over with us.

JEWELL HARDWARE CO.

WE DO FINE SHOE REPAIRING

The Electric Laundry

Whether you do your own washing, hire a helper, or send the work out, you can save money, time and wear and tear by installing up-to-date home labor savers driven by

ELECTRIC MOTORS

You will be surprised to see how little it costs to run these motors. Their first cost is soon offset by the saving in labor. Less than a cent an hour will operate most of the machines for home laundry work. A couple of hours will suffice to finish a good sized wash the electric way.

Will you try one of these machines in your home?
