

# PRINCE ALBERT

the national joy smoke

**TALK** about smokes, Prince Albert is geared to a joyhandout standard that just lavishes smokehappiness on every man game enough to make a bee line for a tidy red tin and a jimmy pipe—old or new!

Get it straight that what you've hankered for in pipe or cigarette makin's smokes you'll find aplenty in P. A. That's because P. A. has the quality!

You can't any more make Prince Albert bite your tongue or parch your throat than you can make a horse drink when he's off the water! Bite and parch are cut out by our exclusive patented process!

You just lay back like a regular fellow and puff to beat the cards and wonder why in samhill you didn't nail a section in the P. A. smokepasture longer than you care to remember back!

Buy Prince Albert everywhere tobacco is sold. Toppo red bags, tidy red tins, handsome pound and half pound tin humidors—and—that clever, practical pound crystal glass humidors with sponge moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

There are Stores in This City so good that they could use twice as much Advertising Space as they now use—and make it pay!

The better the store the better the advertising pays. Your own observations in the store-world will confirm this truth.

Publicity is bad only for a bad proposition. It is just as surely good for a good one.

What is a "good store?" One that really serves the public, protecting its patrons as to values, not merely as to prices.

There are many stores in this city answering to that definition completely. In every city there are always some stores that do not.

An important phase of a good store's service to its patrons is its newspaper advertising. This should be complete, frank, informing. It should tell the store news as fully as a good newspaper tells the news of the day.

Perhaps the best possible new policy for the good stores of this city to adopt would be that of doubling the advertising space that they use—thus giving them "elbow room;" giving them bigger opportunities for telling their patrons, in detail, about every selling event, about every bargain offering, about every dollar's worth of new stocks. Of course, even half enough advertising pay the really good store; but adequate advertising would pay much better.

## SET RECORD FOR BUILDING

New York University Put Up Eight Large Buildings for Soldiers in Thirteen Days.

New York university set a record in finishing an army barracks building for the new students' army training corps in six days, says the New York Tribune. This building was the first of a group of eight needed for the newly inducted soldiers at the university. The entire group was completed in 13 days from the time the work was started. Prof. Collins P. Bliss, head of the department of mechanical engineering at the university, supervised this rush job of construction, the university authorities having contracted for the erection of the barracks as soon as it was learned that New York university would become an S. A. T. C. camp.

The buildings are completely sealed so they can be kept comfortably heated by the big cantonment stoves. There are double floors throughout, there is double sheathing on the outside, and the walls are sealed inside. Each barracks conforms to the army plan of 43 by 120 feet dimensions.

In the mess hall 1,000 men are fed in two shifts. High pressure steam cookers are used. There are gas and coal ranges, steam tables on which to keep the food hot, and some kettles three feet in diameter. A dishwasher operated by steam cleans 3,000 dishes an hour.

One of the university's graduate engineers—John Lowry, Jr.—was responsible for the rapid erection of the barracks. Being engaged extensively in government work, he was able to throw in a large force of men, transferred from other government work that was finished.

The site of the first barracks was surveyed and staked and posts were set in concrete in one day.

## WHY IT IS 'CZECHO-SLOVAK'

Sounds Awkward, but Really Is the Only Way to Correctly Express What Is Meant.

Speaking of the awkward cognomen of "Czecho-Slovak," the Independent says it is partly due to linguistic accident and partly to political exigence. The old familiar name "Bohemia" has, like the name "Serbia," a territorial rather than a radical significance and is too small to cover the ethnical entity on which the modern concept of nationality is founded. The Slovak language is only dialectically different from the Czech or Bohemian, but the differences were purposely intensified during the nineteenth century to keep the Hungarian branch of the race apart from the Austrian. Even in America Slovak and Czech newspapers are distinct, although either people can read the other language. Professor Masaryk, head of the new Czecho-Slovak republic, is a Slovak. The Slovaks, being inferior to the Czechs in numbers, wealth and education, are naturally insistent upon equal rights and recognition. The spelling "Czech" is neither native nor English. It is a Polish form of the word, foisted upon the world by persistence of Viennese journalists. The True Bohemian spelling "Cech" is impossible to our newspapers for lack of type with inverted caret over the C. to represent Ch. The final ch is sounded like the German guttural or the Scottish ch as in "loch," but to the ordinary ear is hardly distinguishable from plain k.

## Turned Laugh on Jokers.

We do not think of M. Clemenceau as the sort of man on whom practical jokes would be played, yet he was the victim of an elaborate jest some while ago—in pre-war times, needless to say—and he accepted the position with commendable grace.

A number of Parisians received bogus invitations to dine at the premier's house. Some were total strangers, and their grateful acceptance mystified M. Clemenceau until he realized the hoax.

He did not put them off. He ordered the dinner, and gave his guests a pleasant evening. Not until the evening was drawing to a close did he inform them that their invitations had been sent out by some one of whose identity he had not the remotest knowledge.
