ALL THE EDITOR HAS TO DO

Most any man can be an editor, says the town knocker. All the editor has to do is to sit at a desk six days a week and "edit" such stuff as this:

Mrs. Jones of Cactus Creek let a can opener slip last week and cut herself in the pantry.

A mischievous lad of Picketown threw a stone and cut Mr. Pike in the ally last week.

Jos Doe climbed on the roof of his house last week looking for a leak and fell, striking himself on the back porch.

While Harold Green was escorting Miss Violet Wise from the church social last Saturday night a savage dog attacked them and bit Mr. Green on the public square.

Isiah Trimmer of Running Creek was playing with a cat Friday when it scratched him on the veranda.

Clever "Invention"—

A suitcase, containing 12 quarts of whiskey which was taken from the northbound passenger train last evening is now in the hands of Sheriff Terrell awaiting a claimant. When Speed Cop McDonald boarded the train at the depot on its arrival and spotted the tell-tale suitcase everyone in the car of course disclaimed ownership and it was promptly confiscated. The suitcase was found to be lined with chloride of lime, so that in case one or more of the bottles were broken the chemical action of the lime would destroy the odor of the whiskey and make it impossible to tell what the fluid was.—Medford Tribune.

RETURNING SOLDIER MARRIED IN CALIFORNIA

35 YEARS OLD TO GET IN 50 YEARS TO GET OUT

London, Feb. 12.—Incidents of men stretching the truth considerably to get into the British army when England needed every man and then resorting virtually to mutiny to get out after the armistice was signed have been shown at Folkestone during investigation of the first demobilization demonstrations there. After several hundred men had declined to embark for France at the end of their Christmas leave the military authorities began investigating each case separately.

One man who might be judged anywhere from 38 to 50 years of age appeared before the examining officers.

"On what ground do you think you should be released now?" he was asked.

"I'm more than 41 years of age," he said relying upon the rule that men of that age or more should be released as soon as possible.

"But your army book shows you enlisted 15 months ago at the age of 35."

"I gave that as my age to get in, sir. I am 50 years old now."

"You will have to prove that," came the quick reply, whereupon he turned to a middle aged woman spectator, his wife, who had anticipated the situation and produced a birth certificate. He will be released at once and the method by which he volunteered will be conveniently forgotten.

During the last year of the war no miners were allowed to join the army. Their ranks had been depleted until barely enough coal was being produced.

Another demonstrator claimed he should be released because he was a miner. His record showed he represented himself as a fish-monger in order to join the colors. When he proves he is a miner he will be released.
