

"TOO GOOD TO BE TRUE," INSISTS U. S. SENATOR

J. Hamilton Lewis Advises All to Go Limit in War Securities

"I can give no sounder advice to the American people than to invest in Liberty Bonds and War Savings Stamps." James Hamilton Lewis, United States Senator from Illinois, says in a statement issued in Washington. Senator Lewis is one of the self-made men of the West, having as a young man practiced law in Seattle.

Put off buying the fillyer until next fall and sink the money in Victory Bonds.

There are no Liberty Loans ahead of you after the Victory Loan, so mortgage your future for Victory Bonds. Thousands of our soldiers and sailors mortgaged their futures.

Your boy will be a better man than you are if you give him a weekly allowance for Thrift Stamps. Let him buy them himself.

Start figuring now on your personal quota of Victory Liberty Bonds. If you don't, start figuring on increased taxes.

Pine Leaf Paper. It has been estimated that if the immense waste were eliminated, the daily output of the long-leaf pine industry would be 4,000 tons of paper, 3,000 tons of rosin, 300,000 gallons of turpentine, and 600,000 gallons of ethyl.

THEY DOWNED TWELVE HUN PLANES

Lieut. O. P. Johnson of Des Moines, Ia., and Lieut. O. A. Raiston of Lincoln, Neb., two of Uncle Sam's fighting aviators, have returned to their native land after many experiences in France. Lieutenant Johnson is officially credited with downing five Hun planes and his pal gets seven to his credit.

WAR FINANCE SHOWS WORLD POWER OF U. S.

Victory Liberty Loan Will Clinch America's Position and Prestige

The Treasury Department in a recent review of American financial conditions gives some data which may well make the cynics and half-hearted Americans who are stalling their heads over the Victory Liberty Loan, take notice. The figures bring out the latent but tremendous wealth and investing power of America. They follow:

A bond market which had less than 300,000 customers two years ago had, at the close of 1918, between 20,000,000 and 25,000,000 buyers.

This army of American bond buyers absorbed during 1918 alone \$11,165,565,850 worth of Liberty Bonds—billions, not millions, mind you.

For the less-than-two-year war period in its entirety the American pub-

lic bought \$16,974,329,850 in Liberty Bonds.

And despite all this, right now bond dealers report a lively demand for all sorts of municipal, school and industrial securities—such a lively demand that these dealers are looking about the country for new issues to market.

All this has one meaning. The Victory Liberty Loan is an assured success. The American people are going to absorb this last Liberty Loan. They are going to prove that the patriotism that brought \$1,000,000,000 in subscription in the Fourth Loan was a solid patriotism—the kind that sticks to the end; not the "burrah" kind that flickers to sordid cynicism when the band stops playing and the guns cool.

"If you would know the value of money go and try to borrow some; for he that goes a-borrowing goes a-sorrowing."

—Poor Richard.

Getting the Thrift habit is simply a matter of buying your first stamp. Try it. Steve Brodie took a chance

HIRAM JOHNSON URGES WEST TO BUY SECURITIES

Cost of Bringing Soldiers Home and Finding Them Jobs Must Be Met

United States Senator Hiram Johnson of California sends the following message on reconstruction to the people of the West:

"Although the war has been won, the bills have not all been paid. It is as great a patriotic duty to support the Government now as it was to make sacrifices while the war was on.

"The boys who carried Democracy's banner gave up everything, their jobs, their homes, their all to do their country's service. Now they must be brought home. The expense of returning them to this country and of securing suitable civilian positions for them must be met as patriotically as was the expenditure required for carrying on the war.

"Every loyal American should invest in War Savings Stamps, Liberty Bonds and other Government securities, that they may help the nation as well as themselves.

"Investment in Government securities has not for long been afforded the workman and small wage-earner. Now the doors have been opened and every man, woman and child in America can lend to the Government and receive an adequate return.

"A new era of thrift has arrived. It is a heritage of war. I can think of no better way for Americans to show their patriotism and their desire to help Uncle Sam 'finish the job' than by investing in Thrift and War Savings Stamps and Liberty Bonds to the limit of their ability."

SURVIVORS OF FEUDAL TIMES

Prussian Junkers Rooted in Their Belief of Their Complete Superiority to Ordinary Man.

A Junker is a member of a noble Prussian family, who belongs to the landed aristocracy, and, as a rule, adopts the profession of arms and enters the caste circle of the officer corps. Thanks to the survival of feudalism in the organization of German society, the term has acquired a broader significance. Hence as commonly used today it indicates a narrow-minded, arrogant, and often, bellicose member of the aristocracy.

Since 1862, when, under the leadership of Bismarck, the aristocratic party came into political power, the term has been applied to those who hold reactionary views, because they desire to preserve intact the exclusive social, military and political privileges belonging traditionally to the "well born."

Junkerism and junkerdom indicate the policies and the customary round of ideas, judgments, and prejudices characteristic of the Junker class.

They have been and still are of great influence, for they have affected Prussian domestic policies by their organized efforts to preserve and protect large landed estates; they have molded German social life by their assumption of complete superiority to the ordinary man, especially to the man who engages in trade or manufactures, while the Prussian officer corps has taken its distinctive tone from their haughty aloofness from the civilian population.

DAILY HEALTH TALKS The Many Mysteries of Nature

BY L. W. BOWER, M. D.

You can take an onion seed and a pansy seed, and plant them side by side in the same spot of ground. In one case, you get an onion, with its peculiarly strong odor, and in the other you get a flower of rare beauty. You can plant a poppy seed and get opium (a dangerous, habit-forming drug), or you can plant a rhubarb seed and get something that helps constipation. No scientist, living or dead, can explain these mysteries of Nature. Behind the invisible life germ in each seed is hidden the deep secret that nobody understands. Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening drains, bearing-down pains, periodical irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root, and Oregon grape root. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it.

Favorite Prescription should have the full confidence of every woman in America because it contains no alcohol and no narcotic. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for trial pkg. Tablets.
