DR. REDDY IN FIGHT AT SAN FRANCISCO

Dr. J. F. Reddy, former chief of police of Spokane, and after mayor of Medford, Oregon, was arrested yesterday on a charge of battery after he had knocked down and sat upon E. H. Weidekind, a mining expert, in the lobby of the Palace hotel, says the San Francisco Examiner.

The two men were separated by employees of the hotel, and were both taken to police headquarters by Detective McLaughlin.

The two attempted to renew flaccidness on the way to the prison and McLaughlin said he had the greatest difficulty in restraining them.

Dr. Reddy was released upon bail furnished by himself. No charge was lodged against Weidekind.

Dr. Reddy, who owns extensive chrome deposits in Oregon stated yesterday that Weidekind had been in his employ. He said:

I was talking to Weidekind in the hotel lobby, when the conversation took an unpleasant turn.

When he gave an exceedingly arrogant reply to a civil question, I could contain myself no longer, and knocked him down.

Then I sat on him for a while. At the same time that I delivered the blow I called Weidekind a pro-German. He has previously tried to pester me with what I consider insidious pro-German propaganda. Recently one of the workmen on the mine hit him with a shovel on account of his attitude.

Dr. Reddy is one of the largest chrome producers in the west. He makes regular trips to San Francisco on mining matters.

Weidekind disappeared after being taken to the city prison with Reddy and could not be found to give his version of the encounter.

LIVES IN GREAT FEAR OF SALVATION ARMY

Peter Sampson, a well-dressed man of perhaps 60 years of age and who is thought to be mentally unbalanced, was taken to the county jail in this city today by Sheriff George Lewis.

Mr. Sampson says he has a home-stead in Jackson county, although he has not been on the claim for several years. He is a French-Canadian but says he has resided in Oregon for many years and is a naturalized citizen. He is under the delusion that the Salvation Army is harassing him and giving him undue publicity and is seeking asylum from their persecution. He demands \$40,000 damages from the government and asserts that if the money is not forthcoming immediately he will force the payment.

When taken to the sheriff's office today, a .38 calibre revolver and a large clasp knife were found in his pockets. The revolver was loaded and the knife was sharp. He claims to have recently returned from Washington, D. C., where he went to interview the president in regard to the payment of the \$40,000, and also went to Salem to see Governor Withycombe, but at that place was denied admission because of the governor's illness.

Mr. Sampson was far from being "broke," having some money and about \$600 in war savings stamps in his suit case. He will be taken before the insanity board tomorrow, Judge Gillette of the county court being in Portland at the present time.

Sir Thomas Myles was knighted when he was president of the College of Surgeons, Ireland. He is an authority on the organization of "command depots" of the British army medical service and also on curative workshops.

Good Reason for Leaving.
"Have you had any experience in newspaper work?" said the editor of a large paper to an agitated little man who had applied for a job.
"I should just think so. I was editor of the Middlesbury Mail until yesterday."
"And what made you leave the paper?"
"Well, it was like this: The chief of police down our way was supposed to be a dangerous man with a revolver, and so I tried to keep the right side of him. I wrote a paragraph about him, and said he was Middlesbury's greatest asset. The intelligent compositor, of course, left out the 'et' in 'asset,' and that is how it got into the paper."

HAWAII COMING HERE FOR SCHOOL TEACHERS

Honolulu, T. H., Mar. 5.—Henry W. Kinney, superintendent of public instruction of the Territory of Hawaii, has planned to make a tour of the normal schools of California, Oregon and Washington next April in an effort to obtain teachers for the 1919-1920 school year.

Hawaii has suffered from a shortage of school teachers during the past year and Mr. Kinney hopes to engage at least 100 normal graduates during his tour of the coast states. While in San Francisco he will arrange with steamship companies for transportation for the teachers.

Discussing his plans, Mr. Kinney said: "I will make the trip to get teachers direct from the normal schools, as we find that this is much more satisfactory than dealing with agencies. Then, I think it would be an excellent idea for some one from Hawaii to get in personal touch with all the normal schools of California, Oregon and Washington. At present we are in communication with only a few of those in California."

"At present grammar school teachers in Hawaii are paid a minimum of \$692 a year, with regular annual increases for five years, when a maximum of over \$1,000 is reached. Teachers' organizations expect that the territorial legislature, which meets this month, will grant them an increase of one-third of their present salaries. Support for the teachers' measure has been pledged by a number of prominent members of the legislature."
