VOL. IX., No. 124.

GRANTS PASS, JOSEPHINE COUNTY, OREGON, WEDNESDAY, MARCH 26, 1919.

WHOLE NUMBER 2625.

## BOLSHEVIKS GROWING BOLD AT BUDAPEST

REPORTED TO HAVE ASSASSINATED KAROLYI AND DRIVEN ALLIED MISSIONS OUT

### COL. VIX TAKEN PRISONER

Czecho-Slovaks Cut Communication Lines and Capture Raib, With Large Cannon Factory

Copenhagen, Mar. 26.—A Vienna dispatch says that Count Karolyi has been arrested and will be tried by a revolutionary tribunal.

Berne, Mar. 26.—According to an unconfirmed rumor reaching Prague from Budapest, former Premier-Karolyi of Hungary has been assassinated.

Berne, Mar. 26.—All members of the allied military missions, except one American officer, have left Budapest. A Vienna dispatch says Colonel Vix, head of the French mission at Budapest, has been wounded and taken prisoner by forces of the new Hungarian government.

Berlin, Mar. 26.—It is reported from Vienna that communication between Vienna and Budapest has been interrupted through the capture of the town of Raib, on the Danube, by the Czecho-Slovaks. Large cannon foundries were located there.

Washington, Mar. 26.—Professor Phillip Brown and Captain Nicholas Roosevelt, American members of the inter-allied mission to Budapest, have succeeded in leaving there safely, the state department announced this afternoon.

### \$28,000 GOVERNMENT BONDS STOLEN AT LOS ANGELES

Los Angeles, Mar. 26.—Three thousand dollars in war savings stamps and \$25,000 in Liberty bonds was the booty of two men who burned their way with a powerful gas torch into the vault of the First National bank of Artesia, 12 miles southeast of here, before the bank officials or employees appeared this morning. The robbers came to town in an automobile stolen in Los Angeles, abandoned it here and drove away in another car they stole here.

They battered in the front door of a store adjoining the bank and entered the bank by knocking a connecting door off its hinges. They stole an acetylene torch and a sledge hammer in the store and also took bedding to deaden the sound of their work.

They practically wrecked the place, overturning and destroying furniture and tossing valuable papers about. Some deeds and similar records were twisted into lighters, apparently for cigarettes.

## SALMON PACK GREATEST IN HISTORY OF ALASKA

Cordova, Alaska, Mar. 26.—Alaska's canneries in 1918 packed more salmon than has ever been packed in the history of the industry. The total pack was 4,667,569 cases, as against 5,222,320 for the year 1917.

The world's total salmon pack last year is given as 10,100,127 cases, so that it will be seen that Alaska packed two-thirds of the salmon of the world. Southeastern Alaska, by districts, leads the rest of the territory, having packed 3,385,740 cases. Central Alaska packed 1,404,238 cases and Western Alaska packed 1,887,591 cases.

## TURKS CONTINUE TO ROB AND MURDER

Terrorize Greeks Along Black Sea and Pursue Policy of Exterminating All Christians

London, Mar. 26.—Information received here from Batum indicates that, despite the surrender of the Turkish forces, the position of the Greeks south of the Black Sea and in the Caucasus is tragic.

It is alleged that outrages are being committed by the demobilized, but still armed Turkish reservists and that the Young Turk commander, General Halid Pasha, has been pursuing a policy of systematic extermination of Christians.

This officer, who is a friend of Enver Pasha, is said to be supplying arms to Turkish irregulars in the Russian territories evacuated by the Turkish army. Lately he received from Turkish sources 200 carloads of arms and munitions.

It is charged that these reservists and irregulars loot and massacre the Greek population.

The flourishing Greek town of Sanda, near Trebizond, with a population of about 8,000 is reported besieged by Turkish reservists. The Greeks, profiting by the naturally strong position of the town, are offering heroic resistance.

### DELEGATES HAVE LEFT NO BLUNDER UNMADE

Paris, Mar. 26.—The decision of the supreme council of the peace conference to allow nothing to be published in Paris regarding its proceedings but the official statements has aroused the indignation of the Paris press. Raymond Recoly, for instance, writes in the Figaro:

"When the situation is so disquieting at a moment when the allied governments who have left no blunder unmade, are more than ever in need of the support of public opinion, they raise a regular Chinese wall between the public and themselves."

## WAR RELIC TRAIN WILL VISIT OREGON CITIES

Portland, Mar. 26.—A trail laden with all kinds of relics and souvenirs of the war is to visit Grants Pass at an early date, according to announcement of the Victory-Liberty loan officials. The train is to be officially designated as "The Trophy Special" and is to make a complete tour of the state, making stops at all points reached by railroad.

The tour of the train will be made under the auspices of the Victory-Liberty loan, which will be the fifth and last loan. The loan drive opens on April 21. The exhibits will be furnished by the war department.

The train will consist of two flat cars, bearing the bigger relics, such as guns and equipment, and one exhibit car carrying the smaller relics and souvenirs.

A list of some of the exhibits are as follows: French baby tank, German minewerfer and howitzers, German Albatross motor, German field guns, trench mortars, gun limbers, airplane motors and parts, parts of Zeppelins, barbed wire used at Verdun, machine guns, uniforms of all nations, noise bombs, star shells.

### COMMANDED THOUSANDS BUT IS NOW ONLY THIRD CLERK

London, Mar. 26.—W. M. Ablewhite entered the war as a private in the British army, won the military cross and rose to the rank of brigadier-general. Demobilized, he has returned to his pre-war job with the city of London board of guardians as "third assistant clerk." This, after having held the command of thousands of men.

## WOULD HAVE TREATY JOIN ALL NATIONS TOGETHER

Germany to be Responsible Head For Central Powers. Italy Appears to be Disturbing Factor—Aside From Poindexter and Borah, Republicans Are Silent

Paris, Mar. 26.—It has become known that a serious effort is being made in the highest quarters to join together all in the peace treaties with Germany, Austria, Turkey and Bulgaria, thus making one comprehensive treaty in which Germany will be linked with the other central powers as their responsible head. This would cause some delay but it is believed that it will save time in the end. The plan probably grew from Italy's desires to have its interests with Austria dealt with in the main peace treaty.

Paris, Mar. 26.—President Wilson, Lloyd George and Premiers Clemenceau and Orlando are continuing a series of conferences to clear up the most important questions before the peace congress, and are frankly considering the differences of opinion which developed since the president has returned to Paris. Wilson proposed that sessions be held continuously until the questions are solved.

## BALLOONS BLAZE WAY FOR MAIL AIRPLANES

London, Mar. 26.—Balloons are used as buoys above the clouds to mark the course of the long distance airplane mail service from Marquise, near Boulogne, France to Cologne, Germany, says an announcement of the Royal Air Force which is operating this service. Each balloon is marked with signs to indicate to the airplane pilot its exact locality and thus enable the pilots to shape their course anew when the weather is bad or the clouds are very low. The balloons also mark the landing grounds for the airplanes. Observers in the balloons are required to report the condition of the weather above the cloud layer, the speed and direction of wind and to pass this information to the nearest wireless station for transmission to the airplane pilots.

A chain of wireless stations has been organized along the routes for the transmission of weather reports and if the pilot of an airplane is compelled to make a forced landing he is expected to report his location by wireless or telephone, to the nearest wireless station so that a motor truck can be dispatched to recover the mails and render assistance to the airplane.

### THREW WRONG LIFE SAVER

San Francisco, Mar. 26.—Gus Anderson, government launch skipper, hearing the "man overboard" cry, rushed to the rail with a life preserver in one hand and a doughnut in the other. Excited, he threw the doughnut, blacking the drowning man's eye. He then heaved the life-belt.

## KLAMATH-MEDFORD ROAD WORK MAY START

Portland, Ore., Mar. 26.—Word was received here today from Senator McNary that the forest service advised him that there is no reason why construction of the Medford-Klamath road should not be started soon. Financial support for the road has been recommended beyond the boundaries of the forest service.

## MILLIONS HAVE NO CHANCE TO MARRY

England Has 3,500,000 Too Many Women for Men—Wide Choice of Wives to Select From

London, Mar. 26.—There are one and a half million women in this country who will never have the chance of getting married, is the statement of Miss Norah March, editor of National Health. In 1917 there was a surplus of 1,337,000 marriageable women over marriageable men, and since then there have been the war casualties of 1918.

Miss March says that emigration will remove a few of these surplus women while economic independence will prevent women from marrying men for the sake of a home.

"Many men and women in this age of modern advancement," says Miss March, "are getting different views from those held in the past, and regard women's right to motherhood as a supreme individual prerogative. Having such a wide choice of wives, the question remains as to whether the men will choose the best and strongest women, as upon the women will depend largely the future human race, since the best of manhood has been cut off. The choice really rests with the woman for with her is the right of refusing an offer of marriage."

### WON'T YOU GIVE SOME OLD CLOTHES?

Please take your old clothing + donations for the European refugees, to 107 South Sixth street + this week. It will tax the limit + of every man, woman and child + in Josephine county to fill the + quota for the Red Cross chapter. Donations are coming in + slowly. The ladies in charge of + the collection of this clothing + are patiently putting in their + time awaiting your appearance. + Do not disappoint them. Take + at least one article of wearing + apparel to their headquarters at + once—the collection must be + completed this week, if possible.

## CONGRESSMEN ARE INSPECTING COAST

Portland, Ore., Mar. 26.—Seven congressmen are on a tour of the Pacific coast here for a three days' inspection of the Columbia river territory regarding the establishment of a naval base near the mouth of the Columbia.

### YANKS ALWAYS HAVE APPETITES ALONG

Paris, Mar. 26.—Cooks at the hotel where the hundreds of Americans connected with the peace conference are staying are amazed at the appetites of the Americans. The American breakfast upset all calculations in the French hotel accustomed to supplying guests with rolls and coffee as an early morning meal. Wild calls for ham and eggs, beefsteaks, chops, oatmeal and hot cakes surprised the French cooks, who, after weeks of catering to the hungry Americans, have not become reconciled to the American breakfast menu.

### "CHAMPION" APPEARS FOR MISS GARRISON

Seattle, Wash., Mar. 26.—Kendred J. Wilson, who says he is an ex-member of the royal flying corps, today offered to pay the penalty for the crime of Ruth Garrison, charged with poisoning Mrs. Grace Storrs. Wilson called up local newspapers and made his offer.

"I believe the girl is only a child who does not realize what she has done," he said. "For that reason I will offer myself to either serve her sentence or give my life, if necessary."

## PEACE AWAITS SUPREME WAR COUNCIL MOVE

COMMITTEES HAVE FINISHED THEIR WORK BUT SOME BIG CHANGES ARE EXPECTED

### WILL SOON SUBMIT REPORTS

Americans Insist on Amendment to Protect United States Against Influx of Foreigners

Paris, Mar. 26.—Virtually all the commissions and sub-commissions of the peace conference are waiting for instructions from the supreme council in order to lose and submit their reports.

It is said that except for instructions on certain broad principles which must come from the premiers, the reports are ready to be submitted within a few hours after the instructions are received.

An American amendment to protect nations against the influx of foreign labor was adopted today by the league of nations commission. It affirms the right of any country in the league to control matters solely within domestic jurisdiction.

Another important amendment to the league covenant affects article VIII, which empowers the executive council to formulate a plan for the reduction of armaments. The language of the article is altered so as to limit the powers of the council to a simple recommendation to the governments affected.

The American peace delegation, it is understood, has definitely agreed upon the amendment it will offer to article X of the covenant of the league of nations to safeguard the Monroe Doctrine.

The amendment provides that agreements under the covenant shall not be construed as an infringement upon the principles of international policies heretofore generally recognized.

President Wilson would have offered the amendment at the meeting of the league of nations commission last night, but discovered a slight imperfection in the text and reserved the right to submit it later.

As framed, the amendment will be an appendix to the article pledging members of the league to respect and preserve against external aggression the territorial integrity and existing political independence of members.

Mention of the Monroe Doctrine by name is avoided purposely.

Many changes in the text of the covenant were made with the special purpose of clarification and removing ambiguities to which attention had been called by speakers in the United States.

### MRS. BOISE DIES AT SALEM

Salem, Ore., Mar. 26.—Mrs. Emily A. Boise, aged 91, widow of the late Justice R. P. Boise, one of the framers of the Oregon constitution, died here today.

## 300,000 BARRELS OF HERRING FERTILIZER

Christiana, Mar. 26.—Norway has 2,000,000 barrels of herring for export to the central powers or other hungry countries, but England has thus far refused to allow them to be shipped, according to a statement made in parliament today by Stuevold Hansen, commercial minister.

England, the minister declared, had some 300,000 barrels of herring, bought in 1916 to prevent their shipment into the central empires, and they had since been stored in Christiana. The fish were no longer fit for food, the minister said, and could only be used for fertilizer.
