Stockholm, Apr. 2.—A letter written by Field Marshal von Hindenburg on October 30, 1918, was published here today:

"In consequence of the Macedonian disaster with its attendant weakening of the west front, and in consequence of the impossibility of replacing our great losses, there is no longer any possibility of our being able to impose peace on the enemy. PLANNING GREAT TRIP FOR THE BOY SCOUTS

Editor Courier:

Permit me to use your columns to reach the parents of boys and Boys Scouts of Grants Pass.

The Boy Scouts are planning a trip to Galilee and possibly Peavine mountain for Saturday and Sunday, April 5 and 6, leaving Grants Pass at 8 a. m. Saturday and returning by 8 p. m. Sunday. To make the trip we will need six or seven automobiles with drivers. Since I have not time to solicit the business men for their machines and services, I will appreciate it very much if the men who will go and take their machines will let me know not later than Thursday night. Will you do this for your boy or your neighbor's boy. The roads are being scraped this week and will be in good shape.

The trip is for Boy Scouts only, no boys who have not passed the "tenderfoot" tests by Thursday night will be taken. Scouts who wish to go must hand to me before Thursday night the written permission of their parents. Parents should also indicate whether or not the scout may drink coffee or tea on the trip. Scouts who fail to furnish me written permission from their parents by Thursday night will not be allowed to go. Each scout must have one double or two single blankets, knife, fork, spoon, plate and cup, and good heavy shoes, preferably with hobnails, lunch for Saturday noon. The other meals will be furnished at cost not to exceed \$1 for each boy.

I would like very much to have the parents of all boys and especially Boy Scouts meet with me Friday evening, April 4, at the Chamber of Commerce rooms at 8 o'clock.

YANK AVIATORS PRACTICING FOR TRANS-ATLANTIC TRIP

Key West, Fla., Apr. 1.—Flight in an H-S-2 seaplane from Key West to Washington is planned by Lieutenant H. J. Rowen, commander of the H-boat division of the Key West air station.

"About 15 hours of flying time will be consumed," said Lieutenant Rowen. "We will attempt to make the entire trip without stopping. If we are successful, we shall try to make a trans-Atlantic flight this spring."

Lieutenant Rowen and his assistant, Lieutenant H. H. Cautrell, were in the air 11 1/2 hours recently in a flight from Key West to St. Augustine and return, without having to replenish their fuel supply.

Lieutenant Rowen is now designing a new type of gasoline tank which will carry 550 gallons of gas instead of the usual 350 gallons. He is also experimenting with smaller jets, which he claims will reduce the consumption of gas from 30 gallons to 25 gallons per hour.
