OREGON WEATHER

Rain and warmer tonight in east portion. Increasing southerly winds becoming strong and gusty along the coast.

The government is to investigate the "legality" of southern cotton planters in reducing their acreage this year in order to hold prices up. It would seem that farmers should have the privilege of growing as much or as little of any certain crop as they choose, whether that crop be cotton, alfalfa, livestock, or any other staple article. Is the government going bolshevik?

General Pershing has asked those Yanks at Archangel to "keep up their morale." Good advice and from a great soldier, yet we must not expect the impossible from those American boys who for months have been between the devil (bolshevik) and the icy sea. There is a limit to the endurance of flesh and blood, even though that flesh and blood be American.

'Tis said that you can easily spot a bolshevik, even though everyone does not carry a brace of six-shooters and a knife between his teeth. Right now there are two factions: One group is hopeful, contented and looks for the silver lining; the other is disgruntled, obstructive and destructive. Better keep sweet or you'll go bolshevik.

Says the Oregonian: "Since an auto cannot be rolled into the kitchen or cellar overnight, rows of single-stall garages will continue to disfigure the streets in the resident section where there may be a vacant lot." The Oregonian must be a square-head. Those are marks of distinction—the same as egg on the aristocrat's chin or vest.

Fifteen thousand French women have signed a petition asking punishment of those Germans responsible for the deportation of thousands of women and girls in 1916, and who were subjected to odious treatment. There are over a hundred million people who would sign that petition if given the chance.

Yesterday's Mail-Tribune stated that "Medford must raise \$9,000 within 24 hours or lose the P. & E. railroad." That city has a bunch of live wires and we predict they will raise the money.

English maids are organizing in order to get permission to use the bathtubs in the homes where they are employed. Is it possible that English mistresses have been reserving the bathtubs for their poodles?

That Montana story about two beautiful girls killing a mountain lion by throwing rocks at it will hardly go. Still, if the girls were throwing at some other object they might have hit the poor cat.

Not to be outdone by Web-Footers, California will vote on a road bond issue of forty million dollars at their June election.

How we pick a winner!

A long time ago we learned that to fill our logical place in the community, we needed to do more than "sell groceries." We had to give "service."

Perhaps you don't know it, but we feel a keen sense of responsibility for everything we sell you. We feel it is our duty to know all there is to be known about the products on our shelves. So, when something new comes on the market we test it. Test it in our own homes. That's one way to render service.

A striking example of this is RYZON, The Perfect Baking Powder. Now, we were among the first to realize that if RYZON was all that it was said to be, we ought to know about it.

And now we do.

We know so much about it that we recommend it to you as the dependable, economical baking powder. We sell you your flour, eggs and other ingredients and we want your baking to be successful—there is no better way of insuring this, we feel, than by selling you RYZON.

It is 40c per pound, and we would like to tell you something about the RYZON Baking Book which is a complete manual of baking, edited by Marion Harris Neil, and comprising 200 tested recipes. Ask how to get this \$1.00 book.
