WHOLE NUMBER 2657.

SHOEMAKER IS GETTING MUCH ADVERTISING

FORMER ROSEBURG EDITOR AC-CUSED OF WORKING SHADY DEAL AT LEGISLATURE

CLANTON ALSO ON THE CARPET

Game Farm Secured by Logrolling, Claim Fish and Game Commission Has Autocratic Power

Portland, Ore., May 2.—Attorneys for Charles Olin, fisherman, have filed a complaint in the federal court alleging that several members of the state fish and game commission, and Perry Kitzmiller, an employe of the commission, conspired and procured legislation from the last legislature re-confiscating valuable fishing rights on the Columbia river belonging to Olin, in order that Kitzmiller might appropriate them.

Game Warden Shoemaker and Superintendent of Hatcheries Clanton are also alleged to have been in the conspiracy. Legislation prohibited the issuance of licenses to persons not citizens of the United States.

Eugene, Ore., May 2.—Behind proposals of the state fish and game commission to establish a game farm near this city is a story of political bargaining and log-rolling in connection with the enactment of the game code by the recent legislature—a story of how a member of the commission and one of its officers promised to establish the farm in return for the support that Representative L. E. Bean could command for the code.

Frank M. Warren, representative of the cannery interests on the commission and their lobbyist during the session, was the commissioner, and Carl Shoemaker, the game warden, was the officer. Both were lobbying the code through the legislature, and encountering considerable opposition in the house, they solicited the support of Mr. Bean, who was a floor leader and the directing head of a machine in the house. After driving a bargain with them that the commission should locate a game farm in Lane county, Mr. Bean piloted the code through the house, and it was rushed through the senate during the closing hours of the session with an emergency clause. Besides vesting the commission with autocratic power, the code is said to contain a considerable number of jokers, and the emergency clause was attached apparently to prevent the sportsmen from referring it to a vote of the electorate.

FEDERAL JUDGE SWATS THE CHILD LABOR LAW

Greensboro, N. C., May 2.—Federal Judge James Boyd today declared unconstitutional the child labor section of the war revenue bill placing a prohibitive tax on products of child labor entering interstate commerce. Last year he declared the original child labor act void. The supreme court annulled the act by the margin of one vote.

ITALIANS ARE COOLING OFF

Washington, May 2.—Dispatches from Rome to the state department indicate that feeling among the Italians was quieting down and that the Italian statesmen were considering the Fiume question with a greater degree of sobriety than has been manifested in the last few days. Officials here feel that the situation shows a decided improvement.

HANSON WOULD RID COUNTRY OF REDS

Advocates "Hanging Places" and Says the Mayor Who Permits Red Parades Should Be Deported

Topeka, Kan., May 2.—In a Victory loan address here before the Topeka Chamber of Commerce, Mayor Ole Hanson of Seattle, denounced the policy pursued by the government towards anarchism and the I. W. W. as "a skim milk, weak, vacillating and changeable" one and pronounced a warning of a "widespread, national effort to overthrow the government and society by violence." He declared the government was "on the wrong track in starting conferences instead of cemeteries in dealing with the I. W. W., and in singing of brotherly love and turning loose these enemies of society."

As to the revealed bomb plot in which he was one of the intended victims, the mayor said:

"I trust Washington will buck up and clean up, and either hang or incarcerate for life all the anarchists in the country. If the government doesn't clean them up, I will. I'll give up my mayorship and start through the country. We will hold meetings and have hanging places."

He declared he believed the I. W. W. was at the bottom of the bomb plot.

"The conspiracy to overthrow the government is widespread. It permeates every state in the union," he continued. "These men must be ruled by a rod of iron; kindness means weakness to them."

Concerning the pending I. W. W. convention, Mayor Hanson said: "Any mayor that will permit an I. W. W. convention in his city should be recalled and banished from America. He is not an American."

KING READY TO ENTER BUDAPEST WITH ARMY

Vienna, May 2.—King Ferdinand of Roumania, accompanied by a French general, is about to enter Budapest, the capital of Hungary, at the head of his troops, a Bucharest dispatch says.

WILL ELIMINATE STEEP GRADES ON WALDO ROAD

Judge C. G. Gillette and K. E. Hodgeman, of Medford, division engineer for the Pacific highway, returned last night from their trip over the post road to Waldo. The purpose of the trip was to view that stretch of highway with a view of making it a standard road from Wilderville to Waldo. Engineer Hodgeman saw where the road could be straightened and all steep grades eliminated to bring it down to a 5 per cent grade. The state highway commission will later make estimates of the cost and take the matter up with the government, which will then make a complete survey. The distance from Wilderville to Waldo is 30 miles.

HUNDREDS HURT WHEN POLICE INTERFERE

Paris, May 2.—Two hundred and fifty policemen were hurt here during May Day disorders. Only one person was killed. The socialists and leaders of labor unions are indignant over yesterday's fighting. They claim the day was a magnificent demonstration of the power and discipline of the laboring classes and was marred only by the brutality and ferocity of the police.

"VICTORS' PEACE" MAY BE SIGNED UP MAY 27

Germans to be Given 15 Days to Consider—Secret Plenary Session Tomorrow—Italy Still Absent—Belgium Has Prior Claim on \$500,000,000

London, May 2.—If the work of carrying out the last phase of the peace negotiations progresses according to the program outlined in Paris dispatches, the treaty will probably be signed early in the week beginning May 25. The treaty will be presented to the Germans today. Reports indicate that it will be a "victors' peace" and there will be no oral conversations, except the merest formalities.

The enemy will be given 15 days to consider the treaty, with a few additional days for exchange of views between the allied and German delegations. Thus May 27th should see peace. The secret plenary session of the conference will be held tomorrow and the meeting for the organization of the league of nations Monday.

Italy is still not represented at the conference, but her ambassador has been asked to attend such conferences as the regular delegation would attend.

The council of three yesterday gave Belgium prior claim on \$500,000,000 of reparation money to be received.

Paris, May 2.—The naval terms to be embodied in the peace treaty with Germany are finally completed. They do not provide for the sinking of the larger ships, the disposition to be decided upon later.

New York, May 2.—It is reported that messages have been sent to members of the peace delegation, warning them against opening packages. The police are examining a large quantity of explosives confiscated at a house located on West 45th street yesterday.

Washington, May 2.—President Wilson has cabled Secretary Tumulty that in his opinion the labor program adopted as part of the peace treaty "constitutes one of the most important achievements of the new day in which the interests of labor are to be systematically and intelligently safeguarded and promoted." The president thinks no other single thing done would help more to stabilize conditions of labor throughout the world.

REICHSBANK OF BERLIN DOES GREAT BUSINESS

London, May 2.—The military and political collapse of Germany was not a costly experience for the Reichsbank of Berlin, according to copies of the annual report which has just reached London. There was an unexampled increase in money requirements, while the stock of gold decreased.

The total turn over was 3,345,000,000,000 marks, being 1,313,200,000,000 marks more than the enormous figures of the previous year. Gold stocks showed a total decline of 144,000,000 against 114,000,000 in 1917.

Money requirements found expression in a great increase in note circulation, the end of the year seeing 22,187,000,000 marks in outstanding notes as compared with 10,270,000,000 at the close of the year before. In addition to this market loan bills amounted to 10,242,000,000 as compared with 3,978,000,000 in 1917.

The bank had at its disposal foreign money to the value of 13,218,000,000 marks an increase of 5,230,000,000 during the period covered by the report.

Total profits show the record sum of \$14,000,000 marks against 364,000,000 in the previous year. Of this amount 330,000,000 was reserved for war losses. The net profit is given as 111,000,000 marks from which the stockholders received 15,600,000 marks in the form of a dividend of 8.68 per cent as compared with 8.72 per cent the year before. The imperial treasury received in all from the bank, 390,500,000 marks as compared with 207,000,000 in 1917.

TO BRING AMERICAN BOYS HOME FROM SIBERIA

San Francisco, May 2.—Preparations are being made today to bring home the American soldiers on duty in Siberia, and large numbers of them probably will be landed in San Francisco within the next two or three months.

MUNICH CAPTURED

Paris, May 2.—It is reported here that Bavarian government troops have captured Munich from the communists.

OLD OREGON MAY BE GIVEN TO STATE

Not Enough Men to Spare to Man the Old Battleship—To Be Used for Historical Purposes

Washington, May 2.—Acting Secretary of the Navy Roosevelt said today that a shortage of men is about to cause the navy to place the battleship Oregon out of commission. If the state desires, the government will probably turn the great ship over to be maintained for historical purposes, without expense to the navy, but the war department would first strip the old battleship of material valuable to the navy.

SEVENTY-KILLED BY EARTHQUAKE

San Salvador, May 2.—Seventy people were killed and over 500 injured by the recent earthquake.

MANY MEN LOSE LIVES LEARNING AERIAL GAME

Fort Worth, Tex., May 2.—A hundred and six men were killed at the three big government aviation fields between November 15, 1917, and the recent close of aerial activities, according to official figures just made public.

In the same period, the three fields now being closed turned out 1,475 finished aviators, most of whom were sent to the western front. A thousand commissioned aviators were also sent here from other schools to finish their gunnery course at Tullahoma field.

The statistics made public show that during the training period the actual flying hours at Carruthers field totaled 35,000, at Barron field 26,608, and at Tullahoma field, 32,488.

The tail spin and nose dive were responsible for a large majority of the accidents, according to officers. In the entire training period not a single American cadet was killed on the first solo flight. This is attributed to the thorough instruction in ground work. Three British fliers were killed on solo flights.

While the tail spin and nose dive were chief factors in the fatality list, there were many other contributing causes.

Captain Vernon Castle, the American dance interpreter, who had faced death numerous times over the German lines as a British aviator swerved his machine sharply to avoid hitting another aviator here. He lacked height for the maneuver, crashed and was killed.

NOISY AUTOS IRRITATE NERVES OF SOLDIERS

Chicago, May 2.—Authorities in a number of central west cities have taken steps to prevent motorcycleists and automobileists from driving with the mufflers of their motors open. It is declared that the sudden explosions have the same effect as bursting shells and machine gun fire on the shattered nerves of returned soldiers who are suffering from shell shock.

The authorities say that many shell shock victims who had virtually recovered have had to return to hospitals as the result of the sudden "pop pop" of a motorcycle engine behind them.

Winnipeg, May 2.—A bill prohibiting speculation in grain and other food products on Canadian grain exchanges has been prepared by the Manitoba Grain Growers' association and submitted to its parliamentary representative at Ottawa, R. C. Henderson, of Macdonald, Manitoba.

HUN ASSEMBLY WILL GO BACK TO OLD BERLIN

GERMANS HEAR THAT POLES ARE PLANNING ADVANCE ON GERMANY IN POSEN

ROUMANIANS CONTINUE MARCH

Hungarians Offer Czecho-Slav Territory if They Will Cease Hostilities—Czechs Attack

Basel, May 2.—The German national assembly probably will be transferred from Weimar to Berlin next week, the Tageblatt of Berlin reports.

Berlin, May 2.—Mathias Erzberger chief of the German armistice delegation, in a note to Marshal Foch, says Germany has information that the Poles are planning soon an advance against German territory in Posen and Upper Silesia. After such an attack, he said, the German government could not permit the further passage through Germany of the Polish troops of General Haller.

Copenhagen, May 2.—The ring of government troops is closing around Munich, according to Berlin dispatches. The villages of Schonau and Umfing have been captured from the soviet forces without loss. They are about 40 miles northwest of the city.

London, May 2.—The Hungarian communist government, a wireless message from Budapest says, has offered the Roumanian government territorial concessions and requested an immediate cessation of hostilities.

The Hungarian war office statement of April 30 says that the Franco-Serbian, Roumanian and Czecho-Slovak forces continued their advance on Budapest, the Roumanians capturing Mezo-Tur, 30 miles southeast of Budapest.

The Hungarian government also has asked the Jugo-Slav government for a cessation of hostilities, offering territorial concessions.

The military statement says that on Tuesday the Serbians and French captured Hodomez-Vasarhely, while the Roumanians also occupied Szentas and Kun-Szent-Marton, south of Mezo-Tur.

The Czechs attacked with strong forces, it is added, against Czap and Satoraj-Ujhelgy, northeast of Miskolc, and also in the Hernad and Upper Sajó valleys. The Hungarians retired from Chara.

COW CREEK CANYON ROAD NOW PASSABLE

Tourists, both north and south bound, report more or less trouble with bad roads, although with perseverance they are managing to get through the state without the assistance of the Southern Pacific. Cow Creek canyon, between Glendale and Riddle, is still giving some trouble and many cars have been held up there during the past few days. But the fine weather is drying the mud and the contractors on that stretch of the highway promises a much better road within a few days.

MAKE READY TO DEPORT ALIEN BOMB PLOTTERS

San Francisco, May 2.—Immigration Commissioner White stated today that parties of alleged alien revolutionists are being made up in the coast cities for deportation, as results of the bomb conspiracy.
