

Available Money Reserves

The main object of the Federal Reserve Banking System, of which we are a member, is to make more available the united money reserves of the strong banks of the country.

Even in normal times there come seasonal loan demands of which the average citizen is unaware. The farmer must have money loaned him for planting and crop moving. Interest and tax payment periods each present their special banking requirements.

The Federal Reserve Bank through which a member bank may quickly convert commercial paper into available assets when most needed enables us to meet these needs.

FIRST GAME OF SEASON THIS EVENING AT PARK

The Twilight Baseball league opens its season this evening at the A. A. C. ball park on Bridge street, when the Merchants and Mechanics meet. The poor condition of the playing field at the High school campus made the change to the ball park necessary. The spectators will have the advantage of a comfortable grandstand at the park.

While neither of the team captains have claimed the pennant so far, yet each seems to think his team will be right up in the running. Captain Bratton, of the Merchants, states that his battery will be either, Liam, Vernon Coburn, or Bratton, as pitcher and Elmer Gilmore, catcher. Captain Pernoll puts forward Joe Galvin, H. Faubion or Pernoll, as pitcher and Fred Collins, catcher.

The game will start promptly at 7 o'clock and will be a 5 inning contest, as is usual in the twilight games.

E. L. Coburn will officiate as umpire. There will be jitneys running from the center of town to the park, charging a five-cent fare each way.

Their Inevitable Choice THE VICTROLA

In those home where good music has its most devoted hearers, you will invariably find the Victrola.

Why? Because the highly developed taste in art is satisfied with nothing less than the best which the wide world has to offer. Logically and inevitably such a taste demands the instrument which Caruso has selected as his mouthpiece; which Farrar has selected; which John McCormack and Galli-Curci and Alma Gluck—and a host of other leaders—have selected to be their "other self," to represent them, to carry their gold message throughout the world.

That instrument is the Victrola—the inevitable choice for your home.

There are Victrolas in great variety from

\$25.00 TO \$400.00

We will gladly demonstrate the Victrola and play any music for you.

Will Build New Dam

Judge C. G. Gillette and Commissioners McCabe and McFadden returned this afternoon from a trip of inspection to the Wilderville irrigation dam on the Applegate river. Mr. McFadden states that about 40 or 50 feet of the dam was swept away and that the land owners of the Wilderville district are now preparing to build a new dam, about three-quarters of a mile above where the old one stood. Work is to be rushed so that water will be available for this season's crops.

EXPERT TO MAKE SOIL SURVEY ROGUE VALLEY

County Agent C. D. Thompson has received a letter from Prof. W. L. Powers, professor of soils, of the extension department at the O. A. C., in which he states that Mr. Kocher, an experienced soil survey man from the U. S. bureau of soils, has been ordered to Grants Pass to make a soil survey of this part of the Rogue River valley. Such a survey has never been made here and a special effort will be made to make a complete survey of the lands within irrigation districts.
