

Available Money Reserves

The main object of the Federal Reserve Banking System, of which we are a member, is to make more available the united money reserves of the strong banks of the county.

Even in normal times there come seasonal loan demands of which the average citizen is unaware. The farmer must have money loaned him for planting and crop moving. Interest and tax payment periods each present their special banking requirements.

The Federal Reserve Bank through which a member bank may quickly convert commercial paper into available assets when most needed enables us to meet these needs.

At the army hut, located at the camp, are held meetings daily, and accommodations given to mothers visiting their sons. Their Inevitable Choice THE VICTROLA

In those home where good music has its most devoted hearers, you will invariably find the Victrola.

Why? Because the highly developed taste in art is satisfied with nothing less than the best which the wide world has to offer.

Logically and inevitably such a taste demands the instrument which Caruso has selected as his mouthpiece; which Farrar has selected; which John McCormack and Galli-Curci and Alma Gluck—and a host of other leaders—have selected to be their "other self," to represent them, to carry their gold message throughout the world.

That instrument is the Victrola—the inevitable choice for your home.

There are Victrolas in great variety from

\$25.00 TO \$400.00

We will gladly demonstrate the Victrola and play any music for you.

One Chautauqua chairman says of his lecture—"It is the best I have ever heard. In sheer intellectual grasp and evidence of scholarship it is a masterpiece.
