

## YOUR SAVINGS

What are you doing with them? Are you letting them dribble out, a little here and a little there, for things that will be of little, if any benefit to you?  
Or are you keeping them intact so they may grow into a respectable sum that will count when you see the chance for a good investment?

### A BANK ACCOUNT

Keeps your money all in a lump, ready at any time you need it. And if you get the savings habit it is worth almost as much as the savings themselves.

This bank solicits accounts, large and small. Let us help you toward capitalism.

### MEDFORD SANATORIUM

The people of Rogue River valley are to be congratulated upon having at their doors an institution like the Medford Sanitarium. It is the only institution on the Pacific coast thoroughly equipped for the treatment of diseased conditions. The building is so constructed that each room has its own lavatory accommodations, private telephone, sleeping porch, etc. Take the item of the X-ray department alone. The cost of equipping same would purchase a very comfortable bungalow of five or more rooms. But without such equipment it would be impossible to thoroughly examine a person. In diseases of the stomach every portion of the intestinal canal can be seen and the diseased portion shown to friends and often the patient themselves.

Special attention is paid to diseases of women, the stomach and Nutritional diseases. 711f

## WORKING OLD MONTANA MINE PLACER FIELDS

Helena, Mont., May 19.—Placer mining, once the source of millions to early day residents of this section, is being carried on within a few hundred yards of the Helena city hall. The operator is Raleigh Wilkinson, son of a pioneer editor who was himself a placer miner of an early day.

On ground beside which as a small boy, he stood and watched the red-shirted Argonauts garner their wealth, he is returning to the old way of seeking gold, in the belief that the strip of ground he has selected was overlooked in former operations. At least \$15,000,000 was taken out, in placer operation, within a radius of half a mile from the scene of Wilkinson's operations, in the days of Helena's earliest boom, it is estimated.

First American Balloon Ascension. January 9 is the anniversary of the first balloon ascension in this country. It was made in Philadelphia in 1783, and it is interesting in view of the rapid strides in aeronautics made in the past few years. Even twenty-five years ago the idea of a dirigible airship was largely a dream.

Death of Mrs. Sheaffer—Sarah Ann Sheaffer, wife of David Sheaffer, died at her home on Jones creek early Sunday morning, at the age of 76 years, 9 months and 1 day. Funeral services took place today at 5 o'clock at the Odd Fellows cemetery, where interment was made. Mr. and Mrs. Sheaffer came to Josephine county in 1907.

Salvation Army Specials—H. Thoroughman and wife are visiting their uncle, Mr. McKey, on Foundry street today. They were converted in Grants Pass when Lieutenant Colonel Robert Dubbin and wife, specialized in Grants Pass nine years ago. The colonel now is stationed in the Hawaiian Islands, while Mr. and Mrs. H. Thoroughman are residing in Salem, Ore. The meeting is for the public. Soldiers and sailors are especially invited. J. E. Strautin, Ensign.

## JAPS LOWER BARRIER ON ALIEN SUBJECTS

Tokio, May 19.—The Asahi reports that the Japanese government has decided on abolishing the barrier placed against alien subjects in Japan by granting foreigners the right of ownership of landed estate and by permitting Chinese laborers to enter the empire for the purpose of engaging in labor in Japan. The newspaper regards these changes as an inauguration of the principle of the open door of the empire preparatory to insisting on the abolition of world racial discrimination. The enforcement of the law granting alien subjects the right to own land in fee simple, which was passed several years ago but which was withheld from operation, will be proclaimed by imperial ordinance shortly, it is said.
