

Investment

There comes a time in every man's life when a judicious, well thought out investment will lay the foundation for a fortune.

When this time comes, a man is fortunate to have his means in shape to handle—where he can utilize them at once.

This can best be accomplished by banking your earnings and savings till the golden opportunity arrives.

We ask you to candidly investigate our standing and favor us with your banking business.

Mining Engineer Here—

I. F. Peck, mining engineer, has been in the Illinois valley for several days looking after his copper properties. His claims are located on the Chetco side of the divide and Mr. Peck has had two miners working on them for several months.

Pioneer of '43 Visits—

O. H. P. Beagle, one of the four surviving pioneers who crossed the plains in 1843; visited his two brothers, Mansel and Frances Beagle, and his sister, Mrs. C. A. Turner, in the Holland district, and returned to Roseburg today. Mr. Beagle is at the soldiers home and had a 14 days' furlough.

Buels Go to Calgary—

Mr. and Mrs. George Buel, 122 Second street, left Saturday night for Calgary, Alberta, to make their future home. Mr. Buel and family have been residents of Grants Pass for the past 12 years, coming here from Salina, Kan. Never liking city life, when a brother-in-law urgently requested Mr. Buel to come and help him seek farm and fortune in the Canadian wheat fields, he willingly accepted the invitation. Mr. Buel still retains his city home and varied mining interests.

Leave for Medford—

Miss Ruth Corbett, home demonstration agent, County Agent C. D. Thompson, and Mrs. Thompson and Mrs. George Eaton expect to leave for Medford tomorrow. In company with Miss McCormick, home demonstration agent of Jackson county, they will visit ten homes in that county, in a home study tour, such homes to show good arrangement of rooms, modern labor-saving devices, attractive grounds and sanitary conditions. Mrs. Eaton will have charge of the home study tour for Josephine county.

Many Prospectors—

Geo. W. Finch and his partner, C. A. McDermoth, came in from the Illinois river yesterday evening and will remain in the city for a few days. They have been working their placer mine on that stream, located just below the mouth of Daily creek. Mr. Finch states that there is now a fine road along the Illinois river, the highway having recently been worked down smooth with a grader. He also said there are quite a number of prospectors in the hills and along the streams.

Another Veteran Passes—

Calvin N. Houck, late a private in Co. K, 39th Missouri infantry, and a native of Missouri, died at the Oregon Soldiers Home at the age of 85 years, 11 months and 18 days. He was admitted to the home on June 23, 1903, from Grants Pass and was discharged at his own request in March, 1905. He was readmitted February 17, 1919. He is survived by a daughter, Mrs. H. E. Gething, of Oakland, Oregon, and a son, Arthur S. Houck, of Grants Pass. The funeral will be held at the home cemetery at 1:30 on Wednesday.—Roseburg Review.

Light Run of Salmon—

According to H. E. Gething, manager for the local salmon fishermen, the present year is one of the poorest seasons for fishing that the men have ever struck. Catches are small and two or three of the boats have discontinued the business for the present. Mr. Gething states that up to the 12th of the present month the run of salmon had been very light at the mouth of the Rogue, while on the Umpqua conditions were little or no better. During the dry weather the fish hover near the mouth of streams and a heavy storm is probably needed to send them on up the rivers.

Frost Expert Leaves—

The frost season in the Rogue river valley finally ends Wednesday, say the Medford Tribune, as far as the weather bureau is concerned, as Floyd Young, the frost expert, who has been stationed here during the season will leave with Mrs. Young tomorrow night for Portland where he will be attached to the weather bureau office of that city for the summer. About the same date last year Mr. Young ceased his duties here and left for Portland, and the next day occurred one of the worst frosts of the season. Hence it is up to everyone to cross their fingers and hope for south winds the minute Young leave town.

Get Thorough Cultivation Without Hard Work

Do you still find that making a cultivator do the right kind of work is a tiresome, tedious job?

Wouldn't you be interested in a cultivator that puts thoroughness into cultivation and takes the hard work out?

That is just what the use of our John Deere KC Cultivator assures.

The "KC's" rigs, in shifting stay parallel. Its shovels always face squarely to their work. They never track or trail on crooked rows. No uncultivated spots nor no deep trenches are left. Over all of the field, on crooked rows, as well as on straight rows, the "KC" gives thorough cultivation—the kind that most effectively destroys weeds and conserves moisture.

The rigs shift quickly in response to slight pressure on the foot levers. Guiding the rigs is as natural as walking.

You can maintain thorough cultivation without delaying work to make adjustments. No wrench work is necessary. You don't have to leave the seat. Simply use the handy levers. These levers enable you to meet quickly and accurately every field condition.

We want you to get into the seat of this cultivator and see for yourself how handy and reliable it is. We've never seen its equal in single-row cultivation for time-saving, labor-saving, weed-destroying work in the field.

Don't fail to come in early and get acquainted with this cultivator.

You can get a "KC" furnished with the famous John Deere Method equipment slip-point hoof chisels and sweeps.
