+ with light frosts. Warmer on +  
+ Wednesday except near coast; +  
+ gentle westerly winds. +

## GET ON THE BAND WAGON

The Grants Pass Chamber of Commerce sends an invitation to the people of Josephine county to join in a movement of progression which is now being made. We want you to help in this great work of making Southern Oregon BIGGER and BETTER. We want more people here. We have faith in our country and we feel it our duty to tell others, and especially those who seek and need climate—to come here, bask in the sunshine and get well. The march to betterment has started—will you join us?

We are determined to make good and with the help of the masses the work can be accomplished in shorter time than if the few have to do it, but may we say that we are going to the front anyhow and we invite you to ride with us to victory. Please do not say it cannot be done for we know better. Only a few weeks ago this body was asked to organize a band. We were told we would have to subscribe \$150. Some said, "IT CANNOT BE DONE," while another said, "IT IS NOT WORTH WHILE TO TRY," but we got busy and instead of subscribing \$150 the people handed over \$500.

We have a splendid people here. All they need is to be taught their duty and they DO IT. We have continued faith in you as a people and so instead of saying it cannot be done we say, "IT CAN BE DONE AND IT WILL BE DONE." We are going to place Southern Oregon on the map of PROGRESSION. We are going to bring money and people here as never before and we again invite you to help bring about the splendid condition contemplated.

On Wednesday next we meet at Ashland and the week following at Medford and we expect the three commercial bodies to get out some reading matter descriptive of our country. We are going to have reading matter that will bear investigation. In other words we will hue out cisterns that will hold water. In this way we expect and will spread the glad tidings of joy to the millions who need just such climatic conditions as obtain here. Southern California was put on the map of the whole world by its citizens telling of their climate. Speak of

Southern California anywhere in the world and it carries with it HEALTH AND PEACE. We do not take a back seat for any section on earth when climate is considered. In fishing we lead, while in hunting we are second to none.

Who knows of all these splendid things. Very few, and we feel it our duty to appraise the world of the good things we have here and WE ARE GOING TO DO IT. This is not the work of commercial bodies alone but the farmers and all alike should take part. Come on boys and girls, lets get busy.

## IRISH TAXED TOO HEAVILY

(Continued from page 1)

the world for shipbuilding. We could line the shores of the Shannon with busy shipyards and workshops. But the people who would take the initiative have not the money, and because we are told we are not capable of self-government, the people who have the money will not lend it to those who could use it.

"The world is passing through an industrial crisis. Every nation—America, England, France and even Germany, is making preparations for world trade. But Ireland is not allowed to take any industrial step that would help her people here at home. Why, the British government even refused me a passport when I wanted to go to America to place the natural advantages of Limerick before your investors and shipowners. So here we are, high and dry, with

vide its own government for in no other way could we give American investors any guarantee that England would not tax their investments out of existence.

"I don't have a great deal of faith in what the rest of the world is going to do for us unless we do something for ourselves. We have stated our principles, and at the present moment a government of the people of Ireland is in office in Dublin. Of course this government can't have any real power until England withdraws her army of occupation and that can only be brought about by pressure from outside of Ireland."

## MEDFORD SANITARIUM

Many, many women go through life suffering from diseases peculiar to their sex, when it is possible to have relief by the proper care and attention. It is only in institutions equipped especially for the intruding of such diseases, where relief can be secured. At your very door you have the Medford Sanitarium which is thus equipped.

## EXTRA TEST For Frictioning

"Frictioning" is the process by which rubber and fabric are milled together. This extra test insures, by micrometer measurement, the exact thickness and precise proportion of rubber to fabric.

HERE we reveal another of the extra tests that make Racine Tires better tires. Each of these extra tests is vitally important. Combined, they promise the utmost in mileage for Racine Tire users.

## Racine Country Road Tires
