GRANTS PASS MAN TELLS OF "100 PER CENT CLUB"

Stanton Rowell, back from an extended trip to Seattle and other cities in the Northwest, is greatly impressed with the work of the "100 Per Cent Club," an organization in Ole Hanson's home town.

This club, says Mr. Rowell, meets once a week and it is the duty of each member to discover something that will assist some business or industry of that city—and not necessarily boost for his own personal interests. These members' suggestions are taken up by the organization and pushed through to a successful conclusion. The scheme works fine in Seattle, says Mr. Rowell, and should be adopted in other cities.

While absent Mr. Rowell attended a meeting at which the president of the American Chemical Association spoke. The gentleman from the East said the Northwest was forging ahead nicely and that it was a great country, both from a climatic and industrial standpoint, but one thing was sadly lacking—an iron and steel plant. He stated that the United States had more and better chemists than had Germany, and that it was the German chemists who made it possible for the Huns to continue the war as long as they did.

At Tacoma Mr. Rowell attended a Shrine ceremonial, and during his trip met a number of former Grants Pass people.

The bride has been a resident of Grants Pass for the past ten years and her many friends wish her happiness on a long and prosperous life. The young couple will make their home at Medford for the present.

Frost Hitting Fruit—From Montana, parts of California and in some of the Central states come reports that fruit has been badly damaged by late frosts. Thus far the crop in the Rogue valley is safe and thinnings are in demand. It was thought the frost the latter part of last week injured the grape crop, but all varieties are showing up well and indications are that Josephine will have a bumper fruit crop of all kinds.

Odd Fellows Attention—On Wednesday evening, June 4th, 1919, there will be work in the first degree on candidate from Glendale, and two of our own. Please come, we need you. A good time assured. T. Y. Dean, secretary. 84

Two More Speeders—The police force have caught two more automobile speeders in their net, or, correctly speaking, have them "spotted" for delivery before Recorder Allyn tomorrow. There are also a few city drivers who never give the horn or "arm signal" when turning corners who may come to grief if they do not comply with the law. It pays to play the game straight.

Fishing Improving—The present fishing season has been one of the tames for sportsmen in years. Not only has fly fishing been "punk," but bait fishermen have fared little better. Even the commercial salmon fishers along the Rogue were disappointed and many of them quit the business. And now for the first time since the opening of the season reports indicate that trout are taking not only bait, but are snapping at the fly. Some fair catches of mountain and cutthroat trout are reported, and the sport appears to be on for fair.

REDLAND FARM OWNERS TAKE WILD FORD RIDE

A. H. Carson and son, L. M. Carson, of the Redlands farm had a wild ride Tuesday morning, which although it was short was exciting throughout. They started for Murphy in their Ford election day morning and just as they were descending the steep grade from the Carson barn to the main road the rear axle broke, there was no control for the car. They were unable to make a sharp turn and landed into a 12x12 wire-fence anchor post, snapping it off. The damage to the Ford was a demolished radiator, broken wheel and sprung axle, while Louis Carson's face was badly scratched. The elder Carson was uninjured.

"LITTLE MISS HOOVER"

A Paramount Picture

Adapted from "The Golden Bird" by Maria Thompson Davison—Scenario by Adrian Gil-Spear. Directed by John S. Robertson.

WHEN MARGUERITE CLARK RAISES CHICKENS!

With a few hens and a rooster she tried to frighten the wolf from the door—and you how difficult it is for chickens to frighten a wolf!

In the midst of it all the incubator broke.

Did she sit down and cry? She did not! She took the eggs to bed with her and in the morning there they were, a whole family of little chicks. When last seen the wolf, his tail between his legs, was fleeing, scared to death, over the hill.
