USE EXTREME CARE TO PREVENT FOREST FIRES

Washington, June 10.—Now is the time to stop the forest fires by not having any, says an announcement from the American Forestry Association.

Here are some "don't's" to be posted upon every tent door flap:

Don't throw your match away until you are sure it is out.

Don't drop cigarette or cigar butts until the glow is extinguished.

Don't knock out your pipe ashes while hot or where they will fall into dry leaves or other inflammable material.

Don't build a camp fire any larger than is absolutely necessary.

Don't leave a fire until you are sure it is out; if necessary smother it with earth or water.

Don't burn brush or refuse in or near the woods if there is any chance that the fire may spread beyond your control, or that the wind may carry sparks where they would start a new fire.

Don't be any more careless with fire in the woods than you are with fire in your own home.

Don't be idle when you discover a fire in the woods; if you cannot put it out yourself, get help. Where a forest guard, ranger, or state fire warden can be reached, call him up on the nearest telephone you can find.

GOOD MONEY FROM BAD EGG

Jim Buckley Finally Proved Truth of Saying That He Was Fond of Repeating.

"That ain't nothin' in the world but is good for somethin'" is one of the favorite sayings of Jim Buckley of Bear Lake.

Buckley is a thrifty soul. He farms in summer and traps in winter and between wheat and furs he is growing rich. One morning his wife was cooking breakfast. She broke a rotten egg into a skillet and was starting toward the door to throw it away when Buckley stopped her.

"Woman, don't throw that egg away," said Buckley.

"But it's rotten," protested his wife. "Makes no difference," declared the philosopher. "That ain't nothin' in the world but—"

"James Buckley," exclaimed his wife, "I've heard that a thousand times."

The wolf never sniffs at the doors of the prosperous farmers of the Peace river country. But foxes are different animals—here is something you don't know—rotten eggs are rated as an epicurean tidbit in vulpine menus.

That night Buckley set a trap in a poplar grove near his home and baited it with the rotten egg. He hoped to catch a red fox or perhaps a coyote.

But when he went out to his trap next morning, what do you think he found? The biggest silver fox Buckley ever had clapped eyes on. He sold the pelt in Peace River the other day for \$348.

"A right nice lot o' money to hatch from a rotten egg," remarked Buckley, as he stuffed the money in his pocket.

"I've allers allowed that that ain't nothin' in the world but is good for somethin'."—Chicago Post.

Headache

THOUSANDS OF WOMEN suffer miserably from periodic attacks of headache, never dreaming that a permanent cure may be had. Headache nearly always results from some disorder of the stomach, liver or bowels. Take Chamberlain's Tablets. They will correct these disorders and there will be no more headache. Many have been permanently cured by Chamberlain's Tablets.

U.S. DEPT OF AGRICULTURE HOW TO CAN OKRA

OKRA

To can okra select young tender pods. Remove stem without cutting the seed pod. Blanch by dipping into boiling water from three to six minutes. Plunge immediately into a cool salt bath (one teaspoonful salt to one quart of water). Remove at once. Pack into previously boiled jars, cover with hot brine (two and one-half ounces salt to one gallon of water). Partially seal jars.

Processing with steam under pressure is recommended. Process pint jars 30 minutes under steam pressure of ten to fifteen pounds. Seal immediately, and cool in a place free from drafts. When cold test for leaks, and store in a cool, dark, dry place.

If the intermittent process is used, boil for one and one-fourth hours on the first day and one hour on the two succeeding days. Loosen the covers on the jars before each successive boiling, and seal completely after each boiling. Cool, test for leaks, and store.

If the single-continuous boiling period is used, boil for at least two hours. Seal, cool, test for leaks, and store.—United States Department of Agriculture.

HINTS ON SELECTING LAYERS

Pullets With Alert Eyes and Comb, Face and Wattles of Fine Texture Are Best.

Judging poultry is said to be a finer art than the selection of other farm animals, but the man or woman who picks pullets with a fine head, alert eyes and comb, face and wattles of fine texture, has taken the first step toward increased egg production. Good pullets should stand square on their feet, with legs wide apart, with the front end of the body slightly higher than the posterior end, and with a long back and tail carried rather high. The body should be wedge-shaped, yielding ample room for the reproduction and digestive organs.

There is nothing worse than bad, foul smelling breath; get rid of it for your friend's sake anyway. Hollister's Rocky Mountain Tea will clean and purify your stomach and bowels; your breath will be sweet, your disposition improved, your friends increased. 35c. Tea or Tablets.
