**DEAD BROTHER'S PICTURE**

Relatives See It on a Screen After War Department Notice.  
 To receive word that a brother had been killed in action in France and then see his picture alive and happy among a number of other frolicsome doughboys on a film in a picture playhouse is the rare experience of Lyle Beck and his sister, Miss Velma Beck.  
 The two went to a theater in Mattoon, Ill. The memory of a telegram from the war department at Washington announcing the death of their brother was still fresh in their minds. During the performance a war film picture of scenes in France was shown.  
 "Why there's William," Miss Velma suddenly exclaimed to Lyle.  
 Both distinctly recognized the picture. It was unusually clear, they said.

**HOW TO CAN PEAS**  
 Green peas are among the most difficult vegetables to can at home. Absolute cleanliness, quick work, attention to every detail, are essentials to success. Only young and very freshly gathered peas should be canned. Peas are best gathered in the early morning when cool. Work rapidly from the moment they are gathered. Peas should not stand after being shelled. Get them into the previously boiled jars as rapidly as possible. Shell and sort, putting only peas of the same size and degree of ripeness together. Do not use hard, mature peas among tender ones or big peas with very small ones.  
 Blanching (dipping into hot water) is very important. If well done, it prevents cloudy liquor, makes the peas tender, and also removes some of the sticky substance which coats them.  
 Blanch by dipping the shelled peas in a clean cheesecloth sack, into boiling water one to four minutes, depending on the age of the peas. Put instantly, while hot, into cold water, (one teaspoonful salt to one quart water) and remove after about 30 seconds.  
 Drain and pack to within one-half inch of the top of the previously boiled jar. If the jar is filled too full, a few peas at the top may burst and make the liquor cloudy. Add seasoning (one-third level teaspoonful salt and two-thirds level teaspoonful sugar to the quart) and fill with hot water and paddle well to remove all air bubbles. Partially seal jars.  
 Processing with steam under pressure is recommended. Process pints 45 minutes under pressure of 10 pounds. Seal immediately, cool in a draft-free place. When cold test for leaks, and store in a cool, dark, dry place.  
 If the intermittent boiling process is used, boil for 90 minutes on the first day, and 60 minutes on the second and third days. Before each subsequent boiling the covers must be loosened, and after each boiling the covers must be securely tightened to make sealing complete. Cool, test for leaks and store.  
 If a single-period boiling process is used, place jars in the canner and boil for at least three hours. Seal, cool, test and store.—United States Department of Agriculture.

There is nothing worse than bad, foul smelling breath; get rid of it for your friend's sake anyway. Hollister's Rocky Mountain Tea will clean and purify your stomach and bowels; your breath will be sweet, your disposition improved, your friends increased. 35c. Tea or Tablets. Sabin's Drug Store.—Adv.

**Biliousness**

**WHEN** you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. There is nothing better.

**Chamberlain's Tablets**

**...does your beard fight the razor?**
