PACIFIC HIGHWAY TO BE
COMPLETED THIS YEAR

Portland, June 17.—From
Portland to the California line, the Pa-
cific highway will be graded, rock-
er paved by the end of the year.
This is the information brought
by Highway Commissioner W.
Thompson today after a trip over
the highway with Commissioners
Benson and Booth. Thompson ar-
rived Saturday morning, Mr. Benson
leaving later and Mr. Booth stop-
ping off at Eugene. The trip of in-
spection will have the result of
speeding up work along the entire
length of highway.

What will interest the public
more than any other phase of our
highway program, said Thompson,
"Is the fact that the Pacific highway
will be open all the year; that by Janu-
ary 1, it will be passable from end
to end, and that Oregon will have
a link finished before California
builds to meet us.

In short, the Pacific highway is
nearly approaching completion.
The commission desires it to be as
open as possible, which is the reason
the policy of elimination of grade
crossings.

This will be an all-year road,"
said Commissioner Thompson,
and the commission will take up its
development when the country is
able to spend money for coopera-
tion. Government money will also
be put into the road as it will be a co-
operative project with the state aid-

"We looked over the location of
the Crater Lake-Medford road," con-
cluded the commissioner, "but no
decision was taken. The location is
under consideration and before
a decision is made the government
survey will be studied."

Puerto Rican Sugar
COURSES INTO NEW YORK

San Juan, June 17.—Shipments of
Puerto Rican sugar to New York will
be faster go forward on the original
basis of 40,000 tons a month say the
best advices to the Sugar Producers'
association from the board of
liquidation of the United States
Shipping board. Shipments of sugar
are now being forwarded regularly
after a complete cessation for three
weeks in April.

Three centrals which have so far
exported their output of sugar to the
United States, show less than their es-
timated production by about 20 per
cent.

According to the latest figures of
the Sugar Producers' association,
less than half of the sugar so far
shipped throughout the island has
been shipped. Of the 2,291,088
bags manufactured, 1,033,899 bags
have been shipped up to May 11.
The 83,491 bags had been sold for
local consumption, leaving a balance
on hand in the island of 1,173,689
bags.

FRENCH ATHLETES
ARE WILLING PUPILS

Paris, June 18.—Evidently the
American soldiers have taught the
Frenchmen how and why to take
athletics seriously. Fully 250 French
athletes, gathered from all over
France and its provinces, are now
quartered at the old Ecole Normal
de Gymnastique et d' Escrime de
Joinville undergoing a period of in-
tensive training. They are prepar-
ing for the inter-allied games at
Pershing stadium from June 22 to
July 6.

Lieutenant Colonel See, French
army, a sterling soldier and a fine
sportsman, is in charge of the train-
ing of the French teams. A pro-
gram for conditioning and perfect-
ing the athletes has been worked up,
based almost entirely on the train-
ing methods of American colleges
and athletic clubs. Nothing has
ever before been attempted along
these lines in France.

At the invitation Franco-American
games recently, the French athletes
were completely outclassed by the
American competitors. This demon-
strated to the satisfaction of the
French athletic authorities that they
must arrange for intensive training
for their men if France is to be a
contender for honors in the inter-
allied games.

Lieutenant Colonel See made a
pertinent statement to a represen-
tative of American general head-
quarters recently. He said: "We
know that there are many branches
of sport in which we do not excel.
However, we shall do our best in
every event and shall train as
though we were sure of winning in
it. We shall follow the Americans'
policy of determination to win, and
shall train with that end in view."

SENATOR KNOX SAYS

(Continued from page 1)

claring the treaty should be ratified
without delay and the league of na-
tions proposal left for later consid-
eration.

"I ask for time," said the senator,
"merely to consider whether or not,
under the covenant, as drawn, the
power to put us at war will still rest
with us or be placed in a body out-
side our own government, and if
placed outside, whether or not such
lodging of the sovereign power is
desirable.

"I ask only for time to deliberate
whether or not we shall put it be-
yond our power to increase the size
of our army and our navy in times
of dire emergency without first con-
sulting the wishes or desires of other
countries."

The Knox resolution did not come
technically before the senate and
the senator made his address in the
midst of an appropriation bill de-
bate.

WAS SOME GAME AFTER
THE BOYS WARMED UP

The Professionals took the Me-
chanics in for a cleaning last night
and were it not for Blevins' triple
play the Professionals would be
running yet.

In the fourth frame Riggs walked
and went the second block on an er-
ror of Blevins which let Groutt get
a good start for second when Swin-
ney connected for a safe hit. Riggs
came home while Groutt took two
long jumps and resting in Fry's
company till Dodge knocked a short
one to Blevins when it was all over,
as Swinney was caught off the sack
and Groutt attempted to get home
unseen—just two moves with the
ball and they were out, 1, 2, 3.

Anyway, the old globe was batted,
booted, tossed and trundled around
till it was dizzy and homesick. But
it was a good game at that, as the
score shows. Professionals, 9 runs;
6 hits. Mechanics, 5 runs; 7 hits.

That there was a small audience
is a pretty good indication that the
Twilight league games may be dis-
continued. It is not fair to expect
boys and men who work all day to
come out and play ball, which for
many players is the hardest kind of
work, if the people of the city take
so little interest as to not come to
see the kind of clean sport that this
country is noted for. However, the
spectators have a slight grievance in
that the games which have been
scheduled for 7 o'clock sharp have
not begun until almost 8 o'clock.
This throws the game so late that
those attending cannot trace the ball
at times, on account of darkness.
The members of the league can do
much toward getting out a big crowd
if they will be more prompt in start-
ing the games and inject a little
more pep into the sport.

There will be a game Friday even-
ing scheduled to start at 7 p. m.,
between the Mechanics and the Mer-
chants.

MEXICO NOT HIT HARD
IN A FINANCIAL WAY

Mexico City, June 17.—The Mexi-
co city newspapers estimate that the
government's deficit this year will
be less than 10,000,000 pesos and
that the financial situation is im-
proving daily. The government has
authorized expenditures of 7,458,269
for the war department and 11,340,-
199 for military supplies.

HUBBARD, ORE., BOY
MISSING SINCE MAY 24

Hubbard, Ore., June 11.—Marvin
Zehner, son of S. W. Zehner of Hub-
bard, Ore., who left his home on the
30th of April, has spent three weeks
in Chitwood, Ore., leaving there the
24th of May, headed for Corvallis, so
word was received by his parents
from that place. He is now without
his brown Norfolk coat as he burnt
it while burning logs. Marvin had
been working for Sondre Romtoed
of Chitwood giving his name as Ray-
mond Miller. He had been at the
following places: Newport, Toledo
and Elk City. He told them it was
his plan to find a place where he
could work for his board and go to
school next winter. He spoke of
trying to get a place a mile or so
from Corvallis. If Marvin reads this
we want him to know there is a good
chance waiting him right in his own
home town, Hubbard. Marvin is 15
years old, 5 feet 3 inches in height,
weight about 110, wore brown cor-
duroy pants, brown canvas shoes,
medium dark hair worn long pompa-
dore, dark gray plaid cap, has blue
eyes, left Hubbard riding a bicycle;
\$25 reward is offered by his par-
ents for information leading to the
finding of their son.

Now You'll Take Better.

Because flashlight powders are not
swift enough for the most rapid pho-
tography an electrical device has been
invented which lights the powder and
then snaps the camera shutter when
the burning powder is at its greatest
brilliancy.

Uncle Eben.

"A lazy man," said Uncle Eben,
"wouldn't be so bad if he didn't allus
want a lot of other folks to knock off
for de sake of sociability."

Grants Pass Evidence For
Grants Pass People

The Statements of Grant Pass Resi-
dents Are Surely More Reliable
Than Those of Utter Strangers
Home testimony is real proof.
Public statements of Grants Pass
people carry real weight.

What a friend or neighbor says
compels respect.

Here's a Grants Pass man's state-
ment.

And it's for Grants Pass people's
far away invites your doubts.

The word of one whose home is

Such evidence is convincing.

That's the kind of proof that
backs Doan's Kidney Pills.

D. O. Toole, 321 Bridge street,
says: "I am subject to back ache at
times, which makes it hard for me to
straighten up when I get down to do
anything. When I have this trouble,
I take Doan's Kidney Pills and they
always fix me up in fine shape.
Doan's Kidney Pills are all that is
claimed for them and I never hesi-
tate to recommend them to others
when I hear them complaining of
pains in the back."
