DEMOCRATS WANT WILSON TO COME HOME

GALLIVAN, DEMOCRAT, JUMPS
ONTO BURLESON AND SAYS
HOUSE-CLEANING NEEDED

SPIRIT OF UNREST SWEEPS ON

Predict President's Coming Will Do
More Than Anything Else to
Check Anarchy

Washington, June 20.—Representative Gallivan, democrat, of Massachusetts, in an attack today on the administration of Postmaster General Burleson, declared it would be a great relief to the people of the United States if President Wilson "would hurry home and clean house in his official family."

"If he will do this," Mr. Gallivan added, "it will do more than anything else to check the spread of radicalism and anarchy and make unnecessary a special appropriation of half a million dollars urged by the attorney general top recent crime by anarchists."

The spirit of unrest among the toilers of the country, Mr. Gallivan said, was breaking out in the most violent form of anarchy in many places. The men most directly responsible, he charged, were "the misguided officials in the city of Washington clothed with war authority which had turned their heads."

"While the president has been in Europe," he said, "some of these officials seem to have gone mad in their lust for power and have blindly blundered in the administration of their departments in such a manner as to aggravate the spirit of unrest."

Mr. Gallivan asserted that Mr. Burleson forced a strike among telegraph operators and then "got from under" by turning the operation back to private hands, "and destroyed all hope of government ownership of public utilities."

SAYS CATHOLICS WILL RULE PROPOSED LEAGUE

Washington, June 20.—Senator Sherman, of Illinois, republican, warned the senate today that the league of nations may end the separation of church and state and bring the civilized world under the domination of the papacy. Senator Sherman said the Roman Catholic church, as it will be represented in the league, will have 24 votes out of 45.

WHISKEY TRAVELS HIGH

Portland, Ore., June 20.—In the hollow space between the vestibule ceiling and the roof of a Pullman car which had just arrived from San Francisco, Deputy Sheriff Ward, Christofferson and Beckman unearthed 498 pints of whiskey, one of the largest hauls which Southern Pacific trains have afforded since the advent of prohibition in Oregon.

GERMAN DEFEAT IS PROMISE OF PEACE

Senator Lodge Sees No Safety in League and Says "Dream But Don't Be Visionary"

In addressing the Harvard university class Senator Lodge said in regard to the league of nations:

"At the close of the last century there was a quite general belief that serious wars would not come again. Some doubted and for their skepticism were called 'lingoes,' 'war lovers' and 'pessimists.'

"But almost everyone felt sure that if war should again break upon us its horrors would be reduced to the lowest point and that the conventions of Geneva and The Hague, the sufferings and cruelties of past wars would be largely eliminated.

"Suddenly the great war came. Germany esteemed by all as a highly civilized nation, entered deliberately upon a course of savage cruelty worse than any ever imagined. The world had known barbarism before, but never had anything fallen upon men comparable to the scientific, wholesale atrocities carried on by Germany by which not merely individuals, but entire communities were subjected to the most hideous sufferings and the most utter ruin which highly-trained minds entirely destitute of humanity could devise.

"As for treaties and laws they went to the fierce flame of war as quickly as the dry leaves of autumn when a spark falls among them.

"The beautiful scheme of making mankind suddenly virtuous by a statute or a written convention was once more exhibited in all its weakness.

"It is a melancholy reflection that the best assurances of the future peace of the world lies in the destruction of the German war power which is worth all it costs.

"Once again comes the harsh lesson that all the advances of men in morals and in altruism, in charity and gentler manners and purer laws, all that really remain with us, come slowly, never in a moment."

"I fervently hope," he said to the Harvard graduates, "that you will have visions and dream dreams, but do not forget that having visions is one thing, while being a visionary, especially a visionary whose visions and ideals are stage-properties, is quite another."

Russian bolshevism, Mr. Lodge said in conclusion, presents a warning to America in its "awful results of a scheme which its authors pretended and their dupes believed would make all men happy in a moment."

"In letters of fire," said Mr. Lodge, "this Russian scene says to us 'this way lies ruin.'

"Does the United States tell us trumpet-tongued that the country for which this younger generation has died is still the best hope for mankind and that it must be preserved as their fathers preserved and saved it in the days that are gone? Be Americans first, Americans last and Americans always. From that firm foundation you can march on.

Abandon it and chaos will come as when the civilization of Rome crashed down in irremediable ruin."

LABOR TO KEEP POLITICS OUT OF BUSINESS

WRITE A DECLARATION OF INDEPENDENCE FOR LABOR AND SCORE U. S. COURTS

WILL STAND FIRM FOR RIGHTS

Claim Present Judges Have More Power Than Even the Kaiser and Kings Dreamed of

Atlantic City, N. J., June 20.—A comprehensive reconstruction program designed "to bring to all people greater hope for a better day, a brighter life, greater liberty and a larger degree of happiness" was adopted by the American Federation of Labor at today's session.

The suggestion that American organized labor form a political party was rejected unanimously by the convention.

Radicals and conservatives united in approving a report embodying reconstruction recommendations devised by the federation's executive council. The report tonight was termed by labor leaders "a new declaration of independence for the workers of America."

"Developments in our social, industrial and political relations, by reason of the necessities of war, have been as varied in nature as they have been grave in character," said the report. "One of the most pronounced and far-reaching results is the realization of workers' rights, duties and responsibilities in the structure of society, industry and government."

"Conscious, as never heretofore, of its power, labor no longer will rest content under a system which treats workers as a commodity or article of commerce. Workers have reached the status and have come to that determination which demands treatment of equality with all other men and women in modern society. They now insist on full value and full compensation for services rendered on a basis that will enable all to enjoy the higher things in life, rather than merely exist near the line beyond which we find human misery, which spells human bankruptcy."

"Despite all precautions to safeguard individual liberty and freedom of action," said the report, "and the fact that the early constitutional convention denied the right to our courts to pass on the constitutionality of laws enacted by congress or our courts and judges have been slowly and surely disregarding these restrictions and limitations and now freely and uninterruptedly exercising powers which even the monarchs and kaisers dared not exercise with all their claims to power by inherent divinity."

"The power of our courts to declare legislation enacted unconstitutional and void is a most flagrant usurpation of power and authority and is a repudiation and denial of the principle of self-government recognized now as a world doctrine. The continued exercise of this unwarranted power is a blasphemy on the rights and claims of free men of America."
