PURPOSE AND NEED OF BATTERY INSULATION

"The purpose of insulation is just the same everywhere," says Mr. Hazelton, Willard service station dealer. "Whether it is in a power plant or in a storage battery its main job is to keep the positive and negative sides of the circuit apart."

"But in a battery there are in all three things that insulation has to do. First, it must keep the positive and negative plates apart; second, it must allow free passage of the battery solution, and third, it must resist the corrosive action of this strong acid solution."

"Certain kinds of wood do all three things and do them well, but the wood must be selected with great care, and even then there is more or less variation, as with any natural product. Wood insulators are also difficult to handle, as they must be chemically treated, must be worked wet, and must never be allowed to dry."

"Threaded rubber insulation, which is now well known among car owners, has all the advantages of the best grade of selected wood, and in addition it gives the plates the advantage of the greater protective properties of rubber." 99

"JIMMY" BRITT SAYS DEMPSEY IS BEST MAN

San Francisco, June 21—"Jimmy" Britt, former lightweight pugilist, is one of those who has gone on record as favoring Dempsey in his championship heavyweight bout with Jess Willard, the champion at Toledo on Independence Day.

"Dempsey is the harder hitter of the two," said Britt. "Willard has passed the fighting age and he never was a man to polish off his opponents in a hurry. Willard is bound to tire early in the fight and to become more tired as the fight goes on. Unless he picks off Dempsey at the start, I can't see that he has a chance."

Stockholm, June 20.—If a proposed eight-hour-day bill becomes a law, Sweden will require 72,000 more workmen to maintain its present industrial output, according to the findings of a government investigating committee. If the addition-

al labor cannot be obtained, the committee's report says, the value of production will be decreased by more than 650 million crowns.

In the opinion of the committee, no increase in intensity of effort would result from shortened hours of work and the cost of production would be advanced 18 per cent. New houses for the additional workers would cost, it is estimated, 350 million crowns.

CARD OF THANKS

We wish to express to our friends our heartfelt thanks and appreciation for the deep sympathy expressed and for kindnesses shown during our sad bereavement.

-need new blades?

Your razor is no better than its blade

The strong, keen-cutting convex edges of Gem Damaskene Blades removes the toughest stubble and tenderest growth with velvet-like smoothness.

The life of each blade is remarkably long.

To know the luxury of velvet-like, smooth self-shaving, you must shave with Gem Damaskene Blades. They leave your face with that smooth, comfortable feeling.

We sell a set of seven Gem Damaskene Blades for 50 cents.

Our store is shavers' headquarters.

Sabin The Druggist
Use Persian Secret for the Hands and Face

A Man May Be Down, But He's Never Out!

He simply needs a helping hand when he's slipping to restore him to economic usefulness.

The Salvation Army extends that helping hand wherever men, women or children are on the down grade. Its workers go into the byways, the hidden places, where misery and poverty go hand in hand. It champions the cause of the weak and the humble.
