# Wash That Itch Away

There is absolutely no sufferer from eczema who ever used the simple wash D. D. D. and did not feel immediately that wonderfully calm, cool sensation that comes when the Itch is taken away. This soothing wash penetrates the pores, gives instant relief from the most distressing skin disease.

# SAN FRANCISCO TRIES FIND JOB TO FIT MAN

San Francisco, June 24.—Ten thousand employers are cooperating with San Francisco's municipal army and navy placement committee, a city employment bureau for war veterans.

Psychological mating of the job and the man, by individual study of the returned fighter's experience and aptitude, and handling each case separately and individually has resulted not only in the placing of 1317 in positions here in the past six months, but created a demand on the part of the employers for men from this service which now has insured a steady flow of men to jobs.

# SOLDIER LETTERS

Bordeaux, June 1, 1919.

Dear Father:

Today is now bright but the early morning was rainy. Cool and pleasant are all of the mornings and the nights are always cool for pleasant sleeping. There is little but routine work here now and the preparation for home going and if the Hun sign we will probably be on our way home in short order but if he refuses we will have to go right into Germany and make them sign in Berlin. Just what the Hun has in mind which prevents him from signing at once, none of us know, but there must be something for he always has some trick in sight.

This is an old country and entirely different from all of America. The methods of doing business are all different and all of the ways of sale are different. When the salesperson makes a sale it is necessary for them to have their customer go to the cashier's desk with them, which may be on the floor below and tell the cashier that they have made a sale and the customer must go with them to the desk. Then the purchaser goes back with the salesman and has the package wrapped and pays the cashier (makes the payment when at the desk). Everything done here takes time and is different from the methods carried out at home. I think America is the most wonderful country in the world and the more I see of foreign countries, the more I believe this to be true. There is no country in the world to compare with the U. S. A.

Foods here are different from those at home in that the people eat different things from our home people. When a fish is prepared for the table, all of it is cooked, head, tail and fins being included. The same way when chickens are cooked, all of the head and neck is brought to the table and the fowl looks as if it had just died and was in the gravy dish, for head, feet, nails, claws and everything except feathers are brought to the table, this is done in the well-to-do homes for it is in such that I have had my boarding place and there I have seen the methods of preparation. Some time ago I had a strange dish presented to me for food and that gold-fish! I had never seen gold fish other than as a curiosity in a pond but they were served for the meal. The fish is quite large and without bones except the backbone, make good food, cutting almost like a piece of meat and the flesh is very good.

The methods of serving a meal I don't like in comparison with our own methods—that is everything is served separately and vegetables are served before the meats and to sit and eat dry rice as a course is not to my liking when after it there is to be served a piece of meat with gravy. Why not serve the meat and also the vegetables and have the gravy to moisten the vegetables. But that would not be French style and this is France so it is necessary when eating with the French to do their way. Your son. ELLIS Lieutenant Colonel Ellis Given, M. C. American Expeditionary Forces. A. P. O. 705.

### FRUITDALE

R. R. Turner, of Roseburg, spent Sunday and Monday at his ranch.

Our school closed last Friday afternoon. The teacher, Margaret Rathbone, kindly made up the time lost last winter during the influenza epidemic.

Gall Hamilton left Sunday morning for Phoenix, Arizona, to try to regain his health in a less changeable climate.

The Nelsons, Gall and Glen Hamilton, Grace Redding, Margaret Rathbone and Allen Underwood gave a farewell for Jessie Brown at the river last Friday.

Tuesday evening Mr. and Mrs. Hampton called at the Alonzo Jones home.

Mr. Droulette, who is an expert electrician has accepted a position with the Gold Hill light and power company. Mrs. Droulette will manage the ranch.

As only the three officers attended the annual school meeting last Friday night, they adjourned and a special meeting will be called later at which they hope to have a good attendance, as a special tax will have to be raised.

Bryan Redding went to Wolf Point, Montana, last week and his brother, Sam, is at Klamath Falls.

David Snyder and wife, of Ashland spent the week end with Mr. and Mrs. Jones.

T. C. Williams, wife and son, Colman, Mr. Williams' mother, of Kerby, spent the week end with the William Williams family.

State Game Warden Shoemaker and son, Dr. Shoemaker, of Roseburg, who are old friends of Charlie Augustine spent a night with him last week. They were on their way to the Yosemite Valley.

G. A. Hamilton has a crew thinning pears, apples and peaches, of which he will have a large crop.

J. I. Stanbrough with his mother and sister, Mrs. Houghton, and her niece, Geneva Houghton, who came from Lansing, Mich., last week to spend the summer, was over to his ranch last Sunday.

The regular monthly meeting of the grange will be held next Saturday.

A. Bauer is working on the Merlin road and boarding in town.

The inhabitants of Fruitdale had a good view of the air fleet as it strung out high above the hills following the valley on their way south to the home field.

G. A. Hamilton, E. Schmidt and A. A. Porter were out on federal loan work Sunday.

# OFFICIALS FINALLY BEAT THE "INDUSTRY"

Helena, Mont., June 21.—The "industry" of raising bounty animals for the bounty is passing into the limbo of the past since the recently enacted and stringent bounty act was passed by the Montana legislature. Affidavits, required under the new act, pin the bounty claimant down in such fashion that he cannot cheat, and, in addition, heavy penalties are provided for misrepresentation.

Under the old law anyone who brought in scalps of "varmints" got the money—and no questions asked. There were many ways to cheat. One of them was to dispose of the same beast in both Idaho and Montana. Bounty was collected on the scalps in this state and on the feet in Idaho. The new law requires that scalps and feet be turned in and as a consequence bounty grafting has fallen off to such an extent that for the first time in the state's history no levy for claims is necessary.

# WORSE THAN DEADLY POISON GAS

Kidney disease is no respecter of persons. It attacks young and old alike. In most cases the victim is warned of the approaching danger. Nature fights back. Headache, indigestion, insomnia, lame back, lumbago, sciatica, rheumatism, pain in the loins and lower abdomen, difficulty in urinating, all are indications of trouble brewing in your kidneys.

When such symptoms appear you will almost certainly find quick relief in GOLD MEDAL Haarlem Oil Capsules.

This famous old remedy has stood the test for two hundred years in helping mankind to fight off disease. It is imported direct from the home laboratories in Holland, where it has helped to develop the Dutch into one of the sturdiest and healthiest races in the world, and it may be had at almost every drug store. Your money promptly refunded if it does not relieve you. Be sure to get the genuine GOLD MEDAL Brand, in sealed packages, three sizes.

**JOHN M. SCOTT**  
General Passenger Agent

You have had crop failures owing to lack of rain. Crops may suffer again this year. Farming is more or less of a lottery anyway, and "Water under the clouds" lessens the chances of winning.

You can make farming practically sure, by artificial irrigation. Electric pumps put moisture at your command in just the right quantity at just the right time. But, in order to be profitable, artificial irrigation must be cheap. And the cheapest method of artificial irrigation known is that obtained by Electric Motor Driven Pumps. This is particularly true when Electric Power is obtainable at low cost.

Let us help you forestall losses from drought. We will give you our best advice in the selection of motors, and we will furnish you power at the lowest cost.

**California-Oregon Power Co.**
