

A Bank With the Strength of Tempered Steel

The soundness of this bank is enhanced by the conservative policy pursued by its officers in the making of loans. It therefore becomes the safest of all places for the care of your savings, upon which it pays interest at the rate of 4 per cent per annum.

This bank invites you to become one of its rapidly growing family of patrons, and offers you every facility consistent with safe, sound and conservative banking.

EXTENSIVE REPAIRS TO JOY THEATRE BUILDING

Tonight the Joy theater moves to the old Star theater location next to the Grants Pass hotel and will occupy that building until extensive repairs and remodeling of the Wolke building have been completed. The Star building has been undergoing remodeling and repairs for some weeks and it is now clean and comfortable.

The improvements to the Wolke building will include the lowering of the floor with the entrance of the street level, the placing of the office over the entrance at the side of the operating room, a well appointed foyer, an adequate furnace for winter, and the complete renovation of the entire building. The repairs will require several weeks.
