***** OREGON WEATHER *****

+ Tonight and Sunday fair;
+ gentle westerly winds.

IS THERE NO RELIEF?

Tired of flagrant violations of the city ordinance relating to the running of automobiles within the city limits with mufflers open and goaded to the point of desperation, the citizens of Klamath Falls have prevailed upon their mayor and chief of police to have the disgusting practice stopped.

Many cities have chronic violators of this ordinance and Grants Pass is no exception. Sick people whose nerves are on edge, and others who do not arise for breakfast before 6 or 7 a. m. are often disturbed by some imp from the infernal regions "warming up" his Ford or automobile for morning service. Even on the main business streets conversation is often interrupted by some aristocrat who comes "fogging" down the street with a dollar and a quarter auto, with muffler wide open.

The whistle at a factory, the sawing of logs into lumber, and the hum of industry in general is sweet music to the ear, but the fellow who persists in making his car imitate a threshing machine or gatling gun has no place in a civilized community.

NOT BAD BUT SICK.

A recent bequest to Harvard university provides \$100,000 for the study and cure of criminals.

For years Turkey has been known as "The Sick Man of Europe." It was so bad, that it was a disease, a sore in the side of humanity. More and more this is being accepted as the true view of criminality. The bad are sick. Many of them can be cured by proper treatment of bodily defects.

It is a great philanthropy, this curing souls by curing bodies, and people who provide funds for it are true benefactors of society.

Who says congress is not bubbling over with wit and sarcasm. That body grants citizens the right to store liquor in their homes for their own use, but how in the name of Tammany and his tiger are the citizens of Oregon going to get the fiery stuff into their homes with bounds of the law searching every suspicious looking package?

In spite of all these news dispatches about Pancho Villa, there are thousands of Americans who refuse to believe that he is still alive. And as a matter of fact, has any

trustworthy American seen Villa in the last couple of years?

A scientist has discovered that a pig can be made to eat more by feeding it lactic acid. Very likely—but our idea of nothin' to do is to stimulate a pig's appetite.

The best way to beat the heat is to go swimming. And anybody who is too dignified or too lazy to do that deserves to swelter.

The kaiser will celebrate a safe and sane Fourth by sawing a few cords more of wood and saying less than usual.

It's a good thing not to over-eat in hot weather, but some faddists don't eat enough to resist the heat.

FORMER G. P. MAYOR
DIES AT WALLA WALLA

George Good, mayor of Grants Pass for two terms and proprietor of the Josephine hotel for 10 years, and who left Grants Pass about 12 years ago, died Friday at Walla Walla, Wash., aged 67 years. Mr. Good conducted a hotel at Pendleton for some years and later was proprietor of the Hotel Dacres at Walla Walla. He is survived by his wife, three daughters, Mrs. Ernest Lister of this city, Mrs. Tom Galvin, now in Walla Walla, and Mrs. Grace Harned, of Centralia, Wash., and by one son, Eugene, who has been the active head of the hotel business for some time. Mrs. Lister leaves tonight for Walla Walla.

FISTIC BATTLE ON 4TH

(Continued from page 1)

ment, eight feet high and half mile long to keep the crowd away from the entrances. Closer to the arena will be a board fence 12 feet high, surmounted by barbed wire, while at the top of the arena itself will be a five foot fence of barbed wire with armed guards stationed every 25 feet. The \$10, \$15, \$25 and \$30 and \$40 seats also will be separated from each other by barbed wire to prevent occupants of one section moving into better seats.

James McLaughlin, an industrial engineer of San Francisco, is the builder of the arena. McLaughlin is known to fight followers from coast to coast as the arenas of some of the most important battles of pugilism have been constructed by him.

When the Jefferies-Johnson fight was switched to Reno, Rickard commissioned McLaughlin to build the arena there. McLaughlin completed the structure, with a seating capacity of 20,000 in seven days.

"My experience at Reno taught me a lesson," McLaughlin said. "We neglected to put up a barbed wire fence in addition to a wood fence. The result was that about 2,000 men climbed over the top and saw the fight without paying a cent. We'll fool them this time."

GERMANS SIGN TREATY

(Continued from page 1)

May 28 and this was followed by several German counter-proposals.

Meanwhile the Austrian delegates had arrived at St. Germain and on June 2 the terms of the peace treaty with Austria as drawn by the allies was submitted to them.

Cleaning, Pressing
Repairing

From the standpoint of economy, the dry cleaning plant is essential.

We have one of the best equipped dry cleaning plants in Southern Oregon.

The badly soiled garments that you think are not worth cleaning are the ones we can put in a clean and wearable condition, thus saving you money, as the new clothes have advanced slightly in price.

MONTANA CATERING
TO THE SPORTSMEN

Butte, Mont., June 28.—Montana soon will plant one hundred million fish annually in the streams of the state, according to J. H. Brunson, superintendent of hatcheries for the state fish and game commission.

The fry will be placed all over

Montana and they will be available in another year for the thousands of sportsmen who flock into the state.

Trout predominate but all the fighting species are represented in the fry and the system of good roads now being put through will make the wildest country accessible to fishermen traveling by automobiles, by the time the first batch of one hundred million fry is ready for hatching.
