OREGON WEATHER

Tonight and Friday fair; moderate westerly winds.

RED CROSS GETTING RUMANIA ON HER FEET

Bucharest, July 3.—The children of Rumania are the special care of the American Red Cross nurses who are showing Rumanian mothers how to care properly for them. They are distributing infants' clothing, condensed milk, soap, talcum powder and everything that contributes to a baby's comfort. In this field of relief work the efforts of the Americans already have shown remarkable results. The condition of the children has been wonderfully improved.

The Red Cross workers found the children in all these war-affected towns in a pitiful state of impoverishment. Many of them were slowly dying of starvation. Others had pellagra and malignant skin diseases. There little ones are now being cared for and given nourishing and fattening foods, such as bacon, jam, cod-liver oil, etc. They have shown wonderful improvement since the Americans came.

month, when the season will be on in full blast, the scores of fisheries and salteries, which dot inlets and river mouths all the way from Ketchikan to Nome, will be employing between 18,000 and 20,000 people, it is expected.

War on the finny tribes of the north Pacific will be waged all summer by the fishermen and cannerymen. This year's pack is expected to equal the pack of last year, which was worth over \$50,000,000, according to an estimate made by the territorial bureau of publicity here.

TAXICAB DRIVERS ARE HARD HIT IN ENGLAND

London, July 3.—There are only 3,000 taxicabs on the streets of London today as compared with 9,000 in 1914. One company owning 3,000 idle cars refuses to operate them because the government will not permit it to charge a flat rate of 25 cents a mile. Five hundred other cars are kept out of service by the police requirement that there shall be a clearance of ten inches between their axles and the ground.

SYNOD OF OREGON IS TO MEET IN EUGENE

The Synod of Oregon of the Presbyterian church will meet in Eugene, Oregon, July 15 to 23, holding most of the sessions at the University. In the spirit of the New Era a great advance step is taken this year in the Synod by holding an eight day session of exceptional educational value. Every Presbyterian church in the state is represented in the Synod by its ministers and elders and over 200 delegates are expected.

Special instructors have been engaged for valuable courses, in addition to the instructors of the University Summer School. Among those secured by the Synod to give addresses and conduct study courses are Rev. Silas Evans, president of Occidental college, Rev. W. R. King, of First Presbyterian church of St. Louis, Mo., Rev. W. E. Finley, of the Church and County Life department of the Presbyterian church, Rev. George Fracker of the Sunday school board, and Rev. Edgar P. Hill of the General Education Board of the Presbyterian church. All-morning sessions will be devoted to inspirational addresses and educational courses, and business sessions will be held in the afternoon. A recreation period occurs at 4 p. m. every day, a popular meeting every evening at 7:30 p. m. and a social hour at 8:30 p. m.

ITALY MUST SWAP GOODS FOR U. S. MONEY

Rome, July 3.—A system of barter akin to that of pioneer frontier days in America, but on a more stupendous scale presents itself as the modus operandi of the foreign trade of the United States in Europe, according to foreign trade experts of the United States government investigating the trade possibilities in Italy.

"Our ability to establish permanent trade relations with the belligerent European nations which have been drained of their resources by war depends upon our willingness to accept a program of barter in the exchange of commodities," is the opinion given the Associated Press correspondent by Dr. Alfred P. Dennis, United States commercial attache, here.

"Italy," he added, "needs such of our raw materials as coal, iron ore, lumber and petroleum products to enable her to start up her industrial processes and begin anew her economic convalescence. She cannot go on borrowing the money to pay for our goods. If she is to have them it must be through swapping her commodities for ours."
