### AIRPLANES WATCH MEXICAN BORDER

El Paso, Texas, July 18.—Aerial "cavalry" keep watch over the Mexican border in this district, patrolling the Rio Grande where horsemen ride their lonely patrols between out-post stations. Each morning, as the horse cavalry ride away to cover their beats big airplanes leave the Fort Bliss flying field for Columbus, N. M., on the west and Fort Hancock on the east to scout along the international border for bands of Mexican bandits. The aviators make daily reports to military headquarters on the same blanks used by the cavalry patrol officers and frequently report armed bands below the border.

### ELKS' LODGE GATHERS IN TWENTY MEMBERS

Six Grants Pass citizens were escorted to Medford last night in automobiles by a number of the local Elks and were initiated into the mysteries of the Elk order, while great herds of "antlers" stood by ready and eager to inflict punishment in various forms. But no fatal wounds were received and the "timid six" returned safely home. They were: Sam H. Baker, George P. Jester, Frank Mashburn, R. W. Clarke, C. H. Ernst and Al J. Martineau. The Elks who accompanied them were, O. S. Blanchard, Jos. Schmitt, F. C. Bramwell, F. B. Olding, Doug Wood, H. L. Truax, A. C. Goetsche, Fred Blackman, Jess Everton, C. A. Winetrot, Stanton Rowell, G. M. Flint, C. A. Lynch and C. H. Corson.

Twenty new members were initiated into the order at the meeting and there are several more Grants Pass residents who will soon join. The Elks are making a rapid growth in Southern Oregon.

After the initiation of candidates, a splendid lunch was served.

### ALASKA NOT IMMUNE FROM FOREST FIRES

Anchorage, Alaska, July 18.—Forest fires raging for 16 hours along Turnagain Arm did an estimated damage of \$120,000 to material accumulated by the Alaska Engineering commission for use in construction of snowsheds on the government railroad line to Seward. Twenty-eight men mastered the fires after a hard fight.

The losses of the commission included over 1,000,000 feet of piling and timber; huge quantities of lumber; piling for use in constructing the new dock at Anchorage; thousands of railroad ties; and approximately 250 cords of fuel wood.
