"Three Flower" Face Powder, Sabin has it.

### Married Saturday

The marriage of Robert Leadbetter and Miss Irene Mercier, was solemnized at Jacksonville last Saturday. Both the bride and the groom are well known in this city. Miss Mercier having attended high school here. After the wedding the couple went by auto to Portland, where they spent some time visiting the groom's parents. Mr. and Mrs. Leadbetter are residing at the Oxford hotel, Mr. Leadbetter continuing in the service of Hobart's garage. \*

### Road Work at Kerby

About one and one-half miles of the five-mile stretch of road grading between Kerby and Waldo have been completed, says Judge C. G. Gillette. It will be two or three weeks yet before the job is finished. The county has four teams and three men with the county caterpillar working on the job. The most expensive part of this piece of roadwork was in clearing the right-of-way, which cost in the neighborhood of \$1,700, but which is much lower than the surveyor's estimate.

Place location notices at Courier office.

Cools the stomach, washes out the bowels, drives out impurities, helps the liver—It's Hollister's Rocky Mountain Tea. Take it once-a-week during hot weather and see how happy and contented you'll be. 35c. Tea or Tablets. Sabin's Drug Store. 741f

# NOTICE TO DITCH OWNERS

The Aitken Revolving Self-Cleaning Fish Screen has been adopted by the State Board of Fish and Game Commissioners as a satisfactory device for the adequate screening of irrigating ditches, canals, mill races and other artificial water courses, in accordance with the provisions of Section 64, Chapter 257, Session Laws of Oregon, 1913, which reads as follows:

"Any person owning in whole, or in part, or leasing, operating or having in charge any irrigating ditch, or canal, mill race or other artificial water course, taking or receiving its waters from any river, creek or lake in which fish have been placed or may exist, shall, upon order of the State Board of Fish and Game Commissioners, place of cause to be placed, and shall maintain, to the satisfaction of the State Board of Fish and Game Commissioners, over the inlet of such ditch, canal, mill race or water course, a reasonable grating, screen or other device, either stationary or operated mechanically, of such construction, fineness, strength and quality, as shall reasonably prevent any fish from entering such ditch, canal, mill race, or water course, to the satisfaction of such board. But before any of said officers shall adopt any permanent plan for a screen or other device to be placed in irrigating ditches, it shall be their duty to conduct a competitive examination, and at such examination all persons desiring so to do may submit to said officers for their approval or rejection, working models of their respective screens or other devices for the protection of fish. Inadequate screening devices may be ordered removed and new screens ordered installed, when, upon investigation after full hearing upon which all interested parties have had the right to be heard, it is determined that any screen, grating or other device, either by construction, operation or otherwise, is found to be inadequate, by the State Board of Fish and Game Commissioners. Any person found guilty of violating any of the provisions of this Act shall be punished by a fine of not less than twenty-five (\$25) dollars, nor more than one hundred (\$100) dollars or by imprisonment in the county jail for not to exceed 30 days or by both such fine and imprisonment."

Notice is hereby given to all those coming within the terms of the foregoing section to place immediately their order for such a screen with the Deputy Game Warden in their district, so that the same may be manufactured and installed as quickly as possible. Fifty per cent of estimated cost of screen must accompany the order, the balance to be paid on the installation of screen.

Address all communications to the Deputy Game Warden in your district.

**Carl D. Shoemaker,**  
State Game Warden.
