BOLSHEVIST COUNTERFEITERS
The treasury department is taking precautions against the flooding of this country with counterfeit money.

There is little danger of the scheme amounting to anything in the United States. Methods for detecting counterfeit money are highly developed...

The idea that the American government can be overturned by any such method is laughable. But to prevent even slight annoyance the authorities are taking more than usual precautions...

SENATOR BORAH AND THE LEAGUE
'I am opposed to this covenant because I believe that it will not promote peace, but breed war; I am opposed to it because it takes from the American people and the citizens of our government the most cherished heritage...

'I have been, and am now ready to vote for a treaty of peace; I have been ready to do so for many months.

'If the proposed constitution for a league of nations contains the merits claimed by its friends, why are they so afraid to have it decided upon its own merits? If it contains only a portion that its sponsors claim for it, it is sure to prevail, because the American people have always stood for justice and fair play to all the nations of the earth.'

R-34 was that no member of the crew suffered from air-sickness, which often is an unpleasant feature of air voyages. Just as sea-sickness is of the voyage upon the water. According to one member of the party who took the trip, the big air boat rode as steadily and comfortably as the best type of Pullman car.

similar steadiness, and the passenger making his first trip is apt to suffer considerable distress. But if one can step into the blimp and glide away as serenely as he does on a fast train on a good track, why there is nothing to it at all.

Swimming is not only an enjoyable recreation, but it is an art that everyone should learn. Fear of the water when suddenly plunged into it, is the cause of many a preventable death. Our own Rogue river is proving of great value in the opportunities it gives of learning to swim, and it is a healthy sign that so many people are availing themselves of it.

Some impudent consumer suggests that if the fuel men really want people to order their winter wood right away, they might lower the price a little.

'Give us one generation of children to train to manhood and womanhood,' said a teacher in one of the Boston bolshevist schools, 'and we will set up the bolshevist form of soviet government.'

deemed to be purely American questions to the league of nations or any of its agencies, and that the United States of America may oppose and prevent any acquisition by any non-American power by conquest, purchase or in any other manner of any territory, in possession or control in the western hemisphere.

Fourth: The meaning of Article X of the covenant of the league of nations is that the members of the league are not under any obligation to act in pursuance of said article except as they may decide to act upon the advice of the council of the league. The United States of America assumes no obligation under said article to undertake any military expedition, or to employ its armed forces on land or sea, unless such action is authorized by the congress of the United States of America, which has exclusive authority to declare war or to determine for the United States of America whether there is any obligation on its part under said article and the means or action by which any such obligation shall be fulfilled.

Making Two Ears of Corn Grow Where Only One Grew Before
Not getting the right amount of rain at the right time, is one of the principal causes of crop failure.
This is past history, however, on thousands of profitable farms throughout the country. These farms use Electric Power, and motor driven pumps allow irrigation in the right amount and at the right time.
There are suitable G-E Motors for running the machines in the Barn, in the Dairy, and in the Field. Almost every task and chore on a farm can be done more rapidly, more economically and more safely with Electric Power, than in any other way.
Our Power is at your command at any time, day or night, throughout the year.
