SCHOOL FOR HOUSEMAIDS

A great many of the colored women who have been flocking to the north in the past two or three years and have sought positions in domestic service have been about as completely ignorant of the work they sought to do as possible.

They obtained positions because help was so desperately needed in every field of endeavor and the housework supply was greatly depleted by the call to other fields.

One part of the program of the Detroit Urban league has been to train some of these women for expert houseworkers.

Girls who have taken this work are sent out first on trial jobs. When they have done this practical work for a few weeks or a month or so they are reported as satisfactory and are given a certificate of graduation.

Needless to say, the woman who employs this kind of help should recognize that she has obtained a skilled worker and should expect to pay fairly for such service.

BALKAN JEWS FACE STARVATION AND RUIN

New York, Aug. 2.—Balkan Jews have not escaped the starvation, poverty and disease that are decimating the Jewish population everywhere in Eastern Europe, according to complete reports from special investigators now in the possession of the American Jewish Relief Committee.

The first detailed account of the Jewish situation in Serbia to be received in many months is from Dr. Isaac Alcalay, chief rabbi of Serbia, which headquarters in Belgrade.

CARNATION
"Carnation" Is Good News On the Busy Fruit Farm

"Carnation" to the hurried fruit farmer—at this time of year especially—means freedom from the costly annoyance of caring for cows. To his wife it is just as much a blessing, for it gives her exactly the quantity of fresh, sweet milk she needs whenever she needs it—and no straining to do, no pails and pans to scald and wash.

is "The Answer to the Milk Question" everywhere—in town and country. Carnation is most convenient because it is always ready—economical because there is no waste—and absolutely safe because it is sterilized. Remember, only pure cow's milk in every can.

The very next time you go to town get a couple of cases of Carnation from your grocer.

Let us have your address, and we will mail you without cost "The Story of Carnation Milk," containing many good recipes in which it may be used in your kitchen.

Making Two Ears of Corn Grow Where Only One Grew Before
Not getting the right amount of rain at the right time, is one of the principal causes of crop failure. This is past history, however, for thousands of profitable farms throughout the country. These farms use Electric Power, and motor driven pumps allow irrigation in the right amount and at the right time. There are suitable G-E Motors for running the machines in the Barn, in the Dairy, and in the Field. Almost every task and chore on a farm can be done more rapidly, more economically and more safely with Electric Power, than in any other way. Our Power is at your command at any time, day or night, throughout the year. California-Oregon Power Co.
