### Return to Grants Pass—

Howard M. DeGrasse, ex-chemist and gas plant operator of Central, Cal., has returned from Gravel Creek where he is employed by the Warren Construction company. He has charge of the five-ton Packard trucks that haul the "hot stuff" for bitulitic paving. The cause of his return was sudden illness that overcame him Thursday evening, but he is fast recovering under the care of his mother and expects to soon return to his position.

Will Open New Road—

The 4½ mile stretch of clearing and grading on Waldo Flat will be finished by the first of next week. Hunt, supervisor of that district, working under orders from the county court, will finish the job at a total expense of less than \$2,500. A neat little gaving, which speaks well for the efficient management of road construction by our county court.

Prof Parks was at the caves and made the statement that the Oregon Caves were the only marble caves in the world.

Fine Shotgun Hunting—

A number of Medford and Jacksonville young men who work with threshing crews in the daytime and sometimes spend their nights at purloining water melons came to grief Wednesday night and last night in the water melon patch of Leo Potter, a rancher in the Central Point district. Mr. Potter with his shotgun Wednesday night caught five of them in his patch, turned them over to Sheriff Terrill, and Justice Taylor fined each \$5 and costs on their pleas of guilty. Mr. Potter with the same old shotgun Thursday night caught one culprit, whose companions escaped, whom he brought to Medford and turned over to the sheriff.—Medford Tribune.

## 'The Marriage Price'

Directed by Emile Chautard

She "married for money" and she expected to be unhappy. Nothing could convince her that her wealthy husband really loved her. It took a great crisis to make her realize the fact—it's that great crisis that makes "The Marriage Price" such a wonderful picture. Today? Certainly! Come on!
