SAVE THE OREGON REDWOODS

Grants Pass on Route of Proposed Park to Park National Highway

Steven T. Mather director of the national parks and Madison Grant of New York, organizer of the "Save the Redwoods League," were in the city last night and left this morning for the south, continuing an extended trip over the proposed "Park to Park" highway.

It is proposed to create a sentiment in favor of preserving the natural scenery along the western highways, particularly the trees which have required centuries to mature.

There are three distinct and vastly dissimilar groups of redwoods which are to be saved and these comprise only about five per cent of the redwood forests.

Mexican Terror Takes 40,000 Rounds Ammunition From Carranza, and Forces "Loans"

El Paso, Tex., Aug. 27.—Francisco Villa has obtained his ammunition for equipping his men for his bandit raids by smuggling across the United States border, or by capture of Carranza troops. It is believed that in the past, millions of rounds of ammunition have been smuggled into Mexico for Villa, from Texas, New Mexico and Arizona.

The United States has stopped the smuggling by wholesale, by compelling ammunition dealers to obtain permits from the army intelligence department and by requiring them to make reports of sales showing who receives the ammunition and the use to which it is to be put.

Nevertheless, it is claimed small quantities of ammunition still are being smuggled over the border. Villa has often boasted that he obtained a large part of his ammunition and many rifles from Carranza troops. He captured 40,000 rounds of ammunition intended for Carranza at Parral last spring.

Villa finances his revolutionary movement by compelling foreign mining companies to make "forced loans" in return for protection and by selling and selling cattle, silver and other property. Instances in which he has forced "loans" have been reported within a few months.

It is known that he has captured some of the horses sold by the United States army remount depot at Fort Bliss to the Carranza government.
