There is little difference in the message we have for you each day, and yet we want to impress you with the fact that money is the hub around which the world moves, lives, and has its being.

Opportunity never comes to the careless man, advancement never comes to the lazy ones. Arouse yourself, put ginger into your work and the habit of Saving will come naturally to you.

Claudia, the three-year-old daughter of Mr. and Mrs. P. A. Beaman, 519 South Sixth street, was severely scalded today when she fell into a boiler of hot water which was sitting outside the door at the Beaman home. Little Claudia has been blind since birth and in her play today was not aware of the presence of the hot water and unconsciously backed up against the boiler and sat down in the water, which had been off the stove for about 20 minutes. Dr. Loughbridge says that while the burns are painful, they are not necessarily serious.

The Drone In School

It isn't every time that he prefers to be a drone. Frequently he simply can't help it. It's his eyes. They are weak, or have been strained, or he is troubled with myopia.

THEY NEED ATTENTION AT ONCE

Glasses Ground to Order

A large part of the eye trouble of children is easily corrected if taken in time.

In most cases the right glasses, correctly fitted, will completely remove the trouble.

We carry the best line of optical goods on the market, and can fit any eye, no matter what the need may be.

If glasses can help your child's eyes, we have them and want to supply them. If glasses will not reach and remedy the trouble, we'll frankly tell you so.

Peppy Polly

She Wanted To Go To Jail!

She was just itching to get into jail and wear stripes "and everything".

So she "heaved" a brick through the nearest jewelry store window and the "cops" obliged her by giving her three years.

That's where the fun starts and her sweetheart comes in—in jail. There's a story that will warm the cockles of your heart; pathos that will tickle your throat and fun, why you'll chuckle for a week after you see "Peppy Polly."

—New Wirthmors just in. As always they are extra special values; there's no other Waists like them at anywhere near the price. So generous are the savings these waists afford that a special trip down town to replenish your supply would be a paying investment. Such extraordinary values could only come as a result of the economy-effecting Wirthmor Plan, confined to just one good store in every city.
