HAWLEY RESOLUTION WOULD AID THE MINERS

Following is part of a letter just received by County Clerk E. L. Coburn, from Representative W. C. Hawley, in regard to the suspension of work on mining claims during 1919:

"I am inclosing a copy of public resolution No. 10, which is now the law of the land, relative to the suspension of annual assessment work on mining claims for the year 1919.

"This law in its present form has included in it an amendment inserted by the committee which I did not have in my original bill. The amendment referred to reads as follows:

"Provided that no such suspension shall be granted to any one claimant for more than five claims."

"This was inserted upon the representations made by Congressman Taylor of Colorado. I did not believe it would in all probability cause many complications. The general land office states that it will and Congressman Taylor is now of that opinion.

"I have therefore introduced house joint resolution 183, a copy of which I inclose, providing for the striking out of this proviso.

"I think the general land office will report strongly in favor of this new resolution. I shall urge its early passage, but in the meanwhile the public resolution No. 10, which I inclose is the law of the land and all persons who have five claims or less are provided for."

Following is the law in regard to mining claims at present:

"Resolved by the senate and house of representatives of the United States of America in congress assembled, That the provision of section 2324 of the revised statutes of the United States which requires on each mining claim located, and until a patent has been issued therefor, not less than \$100 worth of labor to be performed or improvements aggregating such amount to be made during each year, be, and the same is hereby suspended during the calendar year 1919: Provided, that every claimant of any such mining claim in order to obtain the benefits of this resolution shall file or cause to be filed in the office where the location notice or certificate is recorded, on or before December 31, 1919, a notice of his desire to hold said mining claim under this resolution.

"Sec. 2. That this resolution shall not be construed to alter, modify, amend, or repeal the public resolution entitled 'Joint resolution to relieve the owners of mining claims who have been mustered into the military or naval service of the United States as officers or enlisted men from performing assessment work during the term of such service,' approved July 17, 1917.

"Approved August 15, 1919."

Concerning Names. Said the observing cuss, "When an actress starts out to make a name for herself she has to think up a good one to start with before she makes it."

English Surgeon in Civil War. Sir Charles Wyndham, the famous English actor, served as a surgeon in the American Civil war.

Optimistic Thought. Many a one threatens while he quakes with fear.

ADDITIONAL LOCAL

Mrs. Goettsche Entertains— Mrs. Goettsche entertained a number of friends at dinner Saturday night in honor of Dr. and Mrs. Hamilton and Dr. and Mrs. Rowe of San Jose, who have been visiting in Grants Pass and Glendale. Those present were, Mrs. Bessie Lytell, Mr. and Mrs. Spiker of Glendale, Oliver Spiker of Klamath Falls, Dr. and Mrs. Rowe, Dr. and Mrs. Hamilton, and Mrs. Merle Dyer.

Matthew Riddle Home— Matthew Riddle arrived yesterday morning from Camp Lewis to spend two days at home. He was in the service a year and a half, spending a year of the time in France. While across he did base hospital work, being connected with base hospital No. 46. He was stationed at Bazorles-sur-Meuse, a town 20 miles from the front, where he was in the central laboratory of a group of seven hospitals. Mr. Riddle attended the University of Montpellier in Southern France for six months before sailing for the states. He will leave tonight for Portland to take up his medical studies in the state college of medicine.

NEW JAP AMBASSADOR

Do You Want to Save Some Money?

Re-insulating a battery is about the most expensive repair there is. And there's only one kind of battery in general use that isn't practically certain to be re-insulated—or junked—within the next year or two.

That one exception is the Willard Battery with Threaded Rubber Insulation. Come in and we'll tell you why.
