Enough Moisture for Plowing—

Up to noon today about one and one-half inches of rain have fallen since the heavy rain clouds began to roll over the Rogue river valley the latter part of last week. Aside from turning in seven indictments last week, the grand jury investigated some other matters in which they did not find sufficient evidence to indict. G. Gillette. The jury also recommended some minor changes at the county jail.

Fires Cost \$25,000—

Although the rains have completely dampened the forests so that there seems to be little danger of more forest fires, Forest Supervisor S. C. Bartrum says the present system will be maintained until about the 25th of September. Some of the biggest fires heretofore occurred in October, according to Mr. Bartrum, so none but the extra force will be released for the present. The fires during the summer, it has been learned from revised figures, cost in the neighborhood of \$25,000, this being expended for hiring special fighters and for their food, transportation and equipment.—Roseburg Review.
