### Boy Wanted—

There is an opening on the Courier for a High school boy who is mechanically inclined, to work out of school hours, Saturdays and during vacations. One who will start with the expectation of continuing for several years. Apply at once.

# Telephone Rates Reasonable

A telephone in your home costs you for  
Individual line, wall set, \$2.75 per month or 9 1/6c per day.  
Two party line, wall set, \$2.25 per month or 7 1/2c per day.  
Four party line, wall set \$2.00 per month or 6 2/3c per day.

Stop and consider what you receive in return for this nominal expenditure.

You are at all times within speaking distance with your physician, druggist, grocer and all business places desired.

You are in constant touch with your friends and acquaintances.

It is always at your service day or night, and on duty every minute of the year.

Protects you and the home in time of danger and emergency.

Saves you time, energy and expense beyond estimation.

Just think, all of the conveniences of the service, together with the saving of time, energy, expense, protection, afforded, etc., for the insignificant expenditure of from 6 2/3c to 9 1/6c per day according to class of service used.

Is not the value received for every dollar paid for telephone service greater than that received for any other dollar you pay out?

The Pacific Telephone and Telegraph Company
