Most Famous Chinese Dish.
What has been considered by Oriental epicures as the delectable dish in China, the bird's nest, is the product of the sea swallow, which constructs its nest of a gelatinous substance taken from sea moss. The Chinese method of preparing the nests for the table is to soak them and boil them in milk until they are very tender. Then they are placed in clear soup and are ready for use. On his trip to China, General Grant was much fettered, and one of the dishes set before him was the bird's nest.

Keeping Even Temper.
Weariness, tired nerves, poor digestion, sudden demands, an overdose of perspiration and a dozen other things will unbalance the temper. You can't always regulate yourself, but you can do a great deal toward keeping the body in trim. You can see to it that the poor old back does not get a load too heavy to be borne. You can also try to guard against surprises that unbalance the mental mechanism and send the mercury skipping skyward. It's the best way to keep an even temper.

Do You Want to Save Some Money?
Re-insulating a battery is about the most expensive repair there is. And there's only one kind of battery in general use that isn't practically certain to be re-insulated—or junked—within the next year or two. That one exception is the Willard Battery with Threaded Rubber Insulation. Come in and we'll tell you why.

JUDGE ADVERTISES TO DETECT GAMBLERS

Honolulu, T. H., Sept. 11.—Newspaper advertising has found a new field in Honolulu. Paid publicity has been recruited as an aid to the foes of lawlessness. Judge William H. Heen, who recently took office as city and county attorney, is buying space in the local dailies to further his campaign against gambling. The following classified advertisement has appeared:

"WANTED—Any information against professional gamblers, owners of gambling joints and che-fa bankers. Such information will be treated confidentially and, if reliable will be paid for. Section 4182, R. L. 1915, provides that persons participating in gambling games cannot be prosecuted if used as witnesses. "WM. H. HEEN, "City and County Attorney."

Judge Heen became a candidate for city and county attorney while on the federal bench here and made professional gambling the issue of the campaign. Orientals, it is said, are very fond of gambling and so conduct their games that detection and successful prosecution is difficult.

CONTRACTS TO KILL BULLS AT SO MUCH 'PER'

Madrid, Spain, Sept. 11.—Jose Gomez one of the most widely known professional matadors, has signed a contract with the owners of a bull ring at Lima, Peru, in which it is agreed that he shall receive about \$600 for each exhibition if he kills six bulls, and a minimum of \$250 if he kills only two bulls. The contract anticipates six exhibitions at Lima which, it is stated, will probably mean more than \$4,000 for Gomez, said to be a record prize for a matador.

Parasol a Mark of Honor.
It was not until the eighteenth century that the parasol became distinctly an article of feminine costume. Large and elaborate parasols have from time immemorial been a mark of honor and official dignity in the Orient. In India, in 1877, when the then prince of Wales made his famous tour, he was compelled, that he might properly impress the natives, to ride upon an elephant and have over his head a parasol with a frame of gold, and with a covering stitched with precious jewels.

Necessity For Increased Telephone Rates

Increased telephone rates are necessary to meet increased costs. Recent increases in wages alone to employes totaling for the State of Oregon upwards of \$225,000.00, made an increase in telephone rates not only necessary but imperative to pay these wages. The net return to the Company under the rates now in effect is less than 3 per cent on the valuation of its property at \$13,282,378.00, as found by the Public Service Commission. Would you be satisfied with such a return on the capital you have invested in your business? Would you consider its sufficient? There has been no general increase in telephone rates for many years. Every user of a telephone who stops to think knows that he would be paying an inadequate rate now if he was not paying substantially more than he was before the war.
