## Do You Want to Save Some Money?

Re-insulating a battery is about the most expensive repair there is. And there's only one kind of battery in general use that isn't practically certain to be re-insulated—or junked—within the next year or two.

That one exception is the Willard Battery with Threaded Rubber Insulation. Come in and we'll tell you why.

## Help Reduce the High Cost of Living

### WE NEED MORE CREAM TO MAKE MORE BUTTER

We are now manufacturing approximately 9,000 POUNDS of butter per week in Southern Oregon which is not enough to supply the wants of our large established trade, and we are therefore obliged to SHIP BUTTER IN from the outside, while many cream producers are favoring outside concerns by SHIPPING CREAM OUT which should be made into butter here and the butter sold here.

## Increase the Speed

Of the Southern Oregon Wheels of Progress by consistently Patronizing your REAL HOME INSTITUTIONS in the sale and purchase of all of your products, and by the elimination of duplication of effort and expense in the handling of these products, aid in the reduction of the HIGH COST OF LIVING. Every pound of CREAM OR BUTTER shipped out of this territory or BUTTER shipped into this territory which should legitimately be manufactured and handled here, adds to the higher cost of the product produced.
