\$5,000,000 FUND IN HONOR OF ROOSEVELT

WILL ERECT MEMORIAL AT WASHINGTON FOR THE LATE STATESMAN

T. M. STOTT, COUNTY CHAIRMAN

Contributors Will Have Their Names Placed in National Memorial When Constructed

The Roosevelt Memorial association will raise a \$5,000,000 national fund during the week of October 20 to 27, which will be devoted to erecting a national memorial at Washington, D. C., and to maintaining a public park at Oyster Bay, New York, which may ultimately take in Sagamore Hill to be preserved in the same way as Washington's estate at Mount Vernon and Mr. Lincoln's home at Springfield. The fund is being raised by a non-partisan committee, which feels that a memorial to the late Theodore Roosevelt will be an inspiration to future generations of Americans by reason of the high ideals of citizenship it will perpetuate.

The Oregon committee is headed by Dr. H. W. Coe. Oregon's quota is \$37,500 of which \$21,000 will be apportioned to Multnomah county. The great bulk of the money, it is expected, will be received in small contributions. John L. Etheridge is chairman of the committee on apportionment. T. B. Neuhausen is secretary; Edgar H. Sensesich is treasurer; Arthur I. Moulton is head of the speakers' bureau; Edgar E. Piper is state campaign director.

T. M. Stott of this city has been appointed chairman of the Josephine county campaign. Josephine's quota having been suggested at \$210. Mr. Stott will appoint chairmen for the various communities in the county.

The expenses of the national campaign as well as the state campaign are being borne by the personal friends of the late Colonel Roosevelt so that every contributor to the memorial fund is assured that every cent of his contribution will go directly into the national memorial. Every subscriber to the fund will receive a certificate from the Roosevelt Memorial association and his name will be sent to the national committee. The name of every contributor will be placed in the national memorial when erected.

JAPS DON'T LIKE THE GERMAN MISSIONARIES

Tokio, Sept. 18.—Seventy German missionaries who were deported from the South Sea Islands by the Japanese government, have arrived at Yokohama on their way to Germany. They will probably not leave Japan until after the peace treaty has been ratified.

Adjutant Takenaka of the navy department issued a statement saying the presence of enemy missionaries in the islands was proving a menace to Japanese administration.

FIUME MAY BE SCENE OF VIOLENT FIGHTING

Paris, Sept. 18.—Italy is throwing a naval and military cordon around Fiume, which Gabriele d'Annunzio's forces still hold. Food and supplies in Fiume are reported low. It is understood that the invaders intend to destroy the city, if they are unable to hold against the regular Italian troops.

SAYS MIDDLEWEST AGAINST LEAGUE

Borah Asserts Attempt Made to Rush Treaty Through Senate, Johnson Plays Wilson

Washington, Sept. 18.—The middle west is aflame with opposition to the league of nations covenant in its present form, Senator Borah, Idaho, declared today on his return to Washington from a speaking trip.

"The demonstration of Americanism which the middle west is giving," said Borah, "is filling the advocates of unqualified ratification of the treaty with fear and forboding. That is why they are attempting to rush the treaty through the senate. They are afraid of the tide that is sweeping the country."

Sioux Falls, S. D., Sept. 17.—President Wilson intends to place the United States under a substantially new form of government by the league of nations, Senator Hiram Johnson declared here last night.

An audience of 5,000, although not very demonstrative at the start of Johnson's address, shouted and cheered his denunciations of the covenant of what he termed Great Britain's "territorial grab" and the "Shantung infamy."

"When Mr. Wilson started his speaking tour he told the people that he was going to make a report to them," said Johnson. "But instead of facts, they have had nothing but glittering generalities."

The senator declared "Mr. Wilson has outgrown this old and honorable American government of ours."

"He admits that the league offers a new system of government. But why give up the government of Washington, of Lincoln, and of Roosevelt? Because he says so?" "No," was the roar of the audience.

Referring to the charges of pro-Germanism made against those who oppose the treaty by Mr. Wilson, Johnson said:

"It is a bad and lost cause which in its extremity resorts to epithets and vituperation, and the choice is not between the league of nations and Germanism. The choice is between the league of nations and Americanism. The choice is between Mr. Wilson's internationalism, which subordinates and subjects Americanism to European and Asiatic power, and the Americanism that has been ours for 140 years."

BLAMES AUTHORITIES FOR BOSTON POLICE STRIKE

Boston, Sept. 18.—Before leaving for Washington last night, Guy Oyster, secretary of President Gompers of the American Federation of Labor, issued a statement in which he condemned the authorities for working conditions in the police department and declared that the striking patrolmen were not to blame for the disorders in the first few days of the strike. He said that the men were being called "deserters" because they had the manhood and the courage to strike, after a two-weeks' notice, for their human rights and constitutional guarantees.

CAILLAUX WILL BE TRIED

Paris, Sept. 18.—The commission of the high court, sitting as a tribunal of accusation, has ordered Joseph Caillaux, ex-premier of France, to face charges of intriguing to bring about a premature and dishonorable peace with Germany.

CLAIMS YANKS CAN'T BE FORCED TO FIGHT ABROAD

President Gives His Interpretation of Covenant—"British Empire Cannot Outvote United States"—Frowns on Policemen's Move--Steel Workers Want to Strike

San Francisco, Sept. 18.—Replying to questions asked by the San Francisco league of nations organization, President Wilson declared today that foreign governments could not outvote the United States in the league, foreign governments could not order American troops abroad, and asserted that the league would have a powerful influence toward the restoration of Shantung to China.

The president said the United States would not be obliged, by Article 10, to aid Great Britain in suppressing revolts in Ireland, and that under Article 11 there would be created a new forum on questions of self-government.

The president declared that the self-governing portions of the British Empire were given six votes because they are autonomous states in all but foreign policies, but they cannot outvote the United States, because in all matters except the admission of new members, no action can be taken without the concurrence of the unanimous vote of members of the council, so the United States' vote is equivalent to the united vote of the British Empire.

CHENOWETH ACQUITTED OF KILLING SYDNAM

Marshfield, Ore., Sept. 18.—George Chenoweth, formerly a county commissioner and member of the legislature, who last spring shot and killed George Sydnam at a dance at Langlois, today was acquitted by a jury in the district court at Gold Beach after a deliberation of an hour and a half.

The case has lasted ten days. The defense pleaded temporary insanity, said to have been brought about by shell shock sustained when Chenoweth was gassed and wounded in France.

Sydnam was shot twice after he is said to have refused to marry Chenoweth's daughter. Sydnam is said to have been the father of the child, born while Chenoweth was with the Canadians in France.

The trial, because of the prominence of the principals, has drawn large crowds, and all of the hotels have been filled, and some even pitched tents in vacant lots and camped through the hearing.

MEXICAN FIRING SQUAD SHOOTSTWO MUTINEERS

Mexicali, Lower California, Sept. 18.—Two of the eight Mexicans found guilty of participation in the mutiny of Mexican soldiers on September 8, at Algodones, Lower California, were executed today, six were sentenced to short terms, and two were acquitted. NAVY MEN PICKING UP 56,000 MINES

North Sea Strwn With High Explosives, Among Which Is a Regular Net-work of "Feelers"

London, Sept. 18.—The American navy is having a tremendous task in sweeping the North sea of the 56,000 electrical and highly sensitive mines they planted there. Explosion by electricity is the method now employed. Some were sunk very deep—as deep as a submarine could go. Each mine was fitted with antennae suspended by floats so that the huge field was not only charged with mines, but had also become a mass of sensitive feelers to explode them. Should a submarine come in contact with an antennae the mine at a short distance away at the end of the antennae would explode.

The problem has been to explode the mines far enough away from the sweeper to ensure safety and also to forestall the danger of the explosion of a mine at a safe distance causing another close to the ship "going off."

The vessels in sweeping use special electric cables several hundred yards long. Operation of a system of electric appliances prevents the mines from exploding if the ship strikes an antennae, but when the electric wire touches the antennae it blows the mines up at a safe distance from the boat. Hundreds are being destroyed by this method.

Aside from the danger and tediousness of the task, bad weather is added to the hardships of the American sailors.

About 75 vessels are employed, the majority of them American.

AIRPLANE IN AIR TALKS WITH SUBMERGED SUB

New London, Conn., Sept. 18.—A radio experiment made off New London by the experiment station, naval section, established communication, both telephonic and telegraphic, between a hydroairplane flying nearly 2,000 feet in the air and a submerged submarine several fathoms in the water. This is said to be the first time that an airplane and a submerged submarine have communicated with each other directly.

ITALY TO STARVE OUT INSURGENT FORCES

London, Sept. 17.—It is understood here that the Italian government intends to institute a blockade of Fiume in an effort to starve out the insurgent forces who seized the town, under command of Captain Gabriele d'Annunzio, and force allied and Jugo-Slav forces to leave.

The Italian government is apparently taking steps to meet the situation that has arisen through the action of d'Annunzio. The veil of the censorship was drawn yesterday and since that time little has been learned of events in the city.

IRISH BITTER AGAINST THE PEACE TREATY

BOURKE COCHRAN DELIVERS COGENT ADDRESS BEFORE COMMITTEE

IRISH RESISTED FOR 900 YEARS

"England Cannot Establish Peace in Ireland; Successful Revolutions Receive Outside Help"

The following article is taken from a recent address by Bourke Cochran, before the foreign relations committee. It shows the bitterness with which the Irish are opposing the proposed league of nations:

"Mr. Chairman and Senators, I would like to begin by answering this morning some questions that were propounded to the gentlemen who appeared before the committee in opposition to this proposed league of nations. One of the most important was that of Senator Borah, who asked if it were true, as some gentlemen have contended on the floor of the senate, that if this league of nations be established it would prove a very effective agency through which Ireland could obtain independence. I take it that Senator Brandegee's question was put in amplification of Senator Borah's inquiry, because he said Senator Walsh made practically the same statement in the course of debate. I shall, therefore, answer both Senators together. I think that Senator Walsh supplied the answer to his own contention most effectively. He said, as I recollect, that there were three means by which a subject nation could effect its independence. One was by consent of the governing nation, the other was by revolt of the subject people themselves, the third was by outside intervention, and he claimed great credit for the proposed league of nations, because it prohibited but one of those methods of relief, leaving the other two open and available. The objection to this position is that no nation ever did achieve its independence by consent of the dominant power, or by naked action of its own people. Every successful revolution of which I have any knowledge was effected through outside support. The American Colonies would not have been free but for the intervention of France. Cuba would still be under the domination of Spain but for the intervention of this country.
