**Works Deep — Mixes Soil
For Best Results**

For mixing soil thoroughly and making a proper seed bed, our John Deere Syracuse Spring Tooth Harrows are especially satisfactory.

In all sections this make of harrow has been profitably used for many years.

In sandy, gravelly or stony ground, where deep cultivation is required it has special advantages.

The spring teeth penetrate to a greater depth than those on any other style of harrow, mixing the soil thoroughly the full depth of the seed bed.

Teeth instantly adjusted by means of convenient levers to meet different soil conditions.

Adjustable hitch—front and rear teeth can be made to work at same depth regardless of size of team or length of tugs. Frame opening between sections widens towards rear. Trash works out through this opening—no loading or choking.

Teeth made of high carbon steel—no bolt holes to weaken them. Frames and tooth bars made of channel and angle bar steel combining great strength, lightness and elasticity.

Our Syracuse Spring Tooth Harrows are made for use with either horses or tractor. Come in and select your harrow.

C. A. WINETROUT

The Implement Man.

Off to Galice—

Attorney Jas. T. Chinnock and M. L. Opdycke expect to leave this evening for Galice, after steelheads. Mr. Opdycke is an expert fisherman, but as Mr. Chinnock is an expert lawyer it is predicted that he will return home with the greater number of fish, despite the old saying that "possession is nine points," etc.

Place location notices at Courier office.

Mrs. J. H. Wagonblast, of Portland, and Mrs. S. T. Johnson, of Woodburn, returned home today, after visiting the F. L. Johnson family. They were accompanied by Gladys Johnson, who will visit at Woodburn.

The new 50-watt all white lamp 65c at Cramer Bros. 81

A fine lot of new cane poles at Cramer Bros. 81

Mintuz blanks at Courier office.

A GREAT SAVING SALE MONDAY OF

Wirthmor Silk Blouses

—Last month we received on a contract placed many months ago our first shipment of WIRTHMOR SILK BLOUSES. Barely had the sale been announced, before prudent shoppers, realizing the remarkable values they offered eagerly purchased all that we could obtain.

—Monday the second shipment goes on sale. They are even more attractive we believe than our previous offerings. The savings they offer are incredibly large, you'll appreciate this the moment you see the winsome styles and note the splendid character.

Your Choice at Just \$5

—The materials used are Crepe de chine, Georgette Crepe and Wash Satin, all of exceptional qualities. The workmanship is of an unusual high order, and they are cut on lines as will insure proper fitting.

—The quantity is limited; no more of the same styles will be obtainable; we therefore urge quick action to avoid disappointment.

The materials used in these Blouses were contracted for last spring by the manufacturer. Since that time the price of these fabrics has almost doubled. The cost to us and to you was figured on the basis of the material when bought. A notable instance of how this store working in intimate co-operation with the right type of manufacturers exercises liberal savings for those they serve.

Ethel Clayton

in

"Vicky Van"

It's a deuce of a fix to be in, isn't it—to mistake a man's wife for his daughter and make love to her before his very nose?

That's what Chester Calhoun did, and he wasn't sorry—not a bit.

From that day Chester stuck to her. Through the ordeal of her married life. Through a great tragedy. And finally, through happiness well earned. A most remarkable story of love and mystery.
