

Making the Nation's Credit Liquid

Reservoir systems insure a steady water supply in every city and large town. The faucet is of very little value without the reservoir behind it.

The Federal Reserve Banking System is a simple and practical means of making the nation's credit liquid at all times.

As a member of that system, this bank is as independent of local conditions as it is humanly possible to make it.

SURVEYORS VIEW NEW ROUTE TO THE COAST

Judge C. G. Gillette, in company with Mr. Sommers, of the California highway commission, and Mr. Hodgden, of the Oregon state highway commission, has just returned from a viewing trip over the proposed new route from Grants Pass to Crescent City. The route would go via Elk Creek and would, says Judge Gillette, provide a route at least 650 feet lower than the present road, besides eliminating one very steep grade.

Both highway engineers were well pleased with the proposed route and will recommend it. In all probability a crew of surveyors will be put on the job to survey the road next spring.

TACOMA ROBBER FOLLOWS JACKSONVILLE HIGHWAYMAN

Tacoma, Sept. 30.—Fred Longstreth, taxicab driver, has reported to the police that two passengers robbed him of \$65 in cash and took his taxicab early Sunday morning. He says he was engaged to carry two men and an apparently ill woman to Roy, south of here. On the prairie near Roy, he says, the men ordered him to put up his hands. After searching him they drove the car toward Portland.

WILL TRY TO PREVENT STRIKE OF 200,000 MEN

Washington, Sept. 30.—Representatives of union shipbuilders on the Pacific coast met here today to appoint a committee to confer with officials of the navy department and the shipping board to ask the withdrawal of orders canceling further increases to shipyard workers after October 1. They said that if the order went into effect a strike of 200,000 men in Pacific coast yards would result, which probably would involve an equal number of men on the Atlantic coast and Great Lakes plants.

There appears to be a great demand for apple pickers in the orchards near Grants Pass. Many women and a few children are helping with the harvest, but it is understood that the growers are offering wages that will justify a man getting in the game. Every person who can possibly do so should offer his services and help save the big crop, which is commanding a fancy price this year.

"The Test of Honor"

Founded on "THE MALEFACTOR" by Phillips Oppenheim

The wife had used all the wiles of her beautiful, dazzling personality to make this man love her and then—

When this man struck down her husband and he died because of the wife's neglect—

She denied the man she professed to love and saw him sent to jail, found guilty of the crime of which he was guiltless.

Did he forget? Could he forgive? Who welcomed him when the iron doors swung open? The woman who betrayed.

You never know just what is going to happen until the last foot of picture has passed. Come to see it!
