

"In Union There Is Strength"

The principle applies quite as much to banking as to soldiers or states or governments. It is most fortunate that the Federal Reserve Banking System has been in operation during the war. The advantages of this organization accrue to the customers of the member banks who at the same time contribute to the strength of the nation's banking system and enjoy the benefit of its protection.

BECOMES PRACTIPEDIST

This city now has a Graduate Practipedist to look after the comfort of its feet. Mr. C. S. Adair, of the Golden Rule Store, has just graduated and received his diploma from the American School of Practipedics, of Chicago.

Practipedics is the new science of giving foot comfort in the shoe store through scientific shoe fitting and the intelligent use and trained fitting of the foot comfort devices invented by Dr. Wm. M. Scholl, the noted foot specialist. Suffering from corns, bunions, callouses, weak arches, etc., will not be indulged in from now on by those who trade at the Golden Rule Store.

No extra charge is made for this foot comfort feature, it being a part of the regular service which this store will give to its patrons in future. 90

"THE MONEY CORRAL" HAS MANY THRILLS

William S. Hart's new Artercraft picture, "The Money Corral," which comes to the Oregon tonight and Thursday is one of the best photographs in which Mr. Hart has been seen in many a day. It is announced that in the making of the big rodeo scenes for this film, all the cowgirls, punchers, Indians and Mexicans within a hundred miles came to take part in the episodes that required fast riding, shooting, roping, etc.

Bill Hart is prominent in these scenes himself. Later the story takes the principal characters to Chicago and the western hero is introduced to the underworld crooks. He beats them, saves a trust company, wins a charming girl for his wife and is presented with a ranch in Montana by his grateful employer, the president of a trust company.

Mr. Hart collaborated with Lambert Hillier in writing and directing this picture and this combination assures the acme of thrill and human interest for both men are famous for their capable work.

Mr. Hart declares that the production comes up to his expectations. "The rodeo scenes will only occupy a few hundred feet of the film," he observes, "but they are worth all the trouble and time, for they mirror faithfully the real life of the West."

BELIEVE LARK EVANS MAN WHO ROBBED WHITE

Lark Evans has been determined as the bandit who held up W. G. White and robbed him of his money and auto and left him tied in the brush above Jacksonville on the 13th of September. Evans is a paroled convict from the Oregon penitentiary. He was arrested for burglary in Portland on the 23rd of January last and paroled soon after and it is suspected that he is the murderer of the strange man whose body was found recently in the same locality where he took Mr. White. It has been determined that the murdered man was a Washington state man. Evans was last seen and the "woman" was with him at Olympia, Washington. The officials seem to have lost the trail of the pair. Mr. White has his prison photograph which is readily recognized by the Jacksonville garage people and police and by others as the man who robbed and mistreated Mr. White.

Evans is suspected as the man who held up and robbed a man of \$60 in Washington recently. He is an auto expert-machinist.
