PLEA FOR MOTHERHOOD TO REPOPULATE FRANCE

New York, Oct. 22.—A plea for motherhood out of wedlock was made today at the international conference of women physicians by Dr. Anna Moutet of France.

"In a country the population of which is decreasing," she said, "it is important above all to favor the rate of birth by every means, to do away with all obstacles in the protection of all children indiscriminately.

"Motherhood outside of marriage must no longer be held as a disgrace or a burden. The girl mother must be lifted. The prejudice which makes her an object of general censure must be combatted, and if irregular birth is no longer a disgrace to the child neither must it be a dishonor to the mother. She must find in society for herself and for her child the support which in the past was refused her."

Describing what France has done in the matter, Dr. Moutet said:

"The law has assured the protection of the child born out of wedlock first in creating a bond of right between him and his parents when that is possible; then in assisting the mother when she is alone and without resources, and finally in taking full responsibility in rearing the child.

"In 1917 the government assisted 70,562 abandoned girl mothers or wives and widows in the support of their children.

"Laws regarding investigation of fatherhood are too lax," he said, "and ought to be broadened even if they should disturb the peace of a few families whose egotism and fallen honor are respected at the expense of the child."

In a general discussion of sex morality and prostitution, several speakers urged the necessity of more stringent police measures to cope with the evil.

80,000 AMERICAN CARS SOLD TO THE FRENCH

Berlin, Oct. 23.—The Germans are fearful that thousands of the American automobiles sold by the American expeditionary force to the French will be smuggled across the German border, constituting an undesirable invasion of the German automobile industry. It is said here that 80,000 American cars were sold to the French.

SUPERFICIAL GAYETY MARKS LIFE IN VIENNA

Berlin, Sept. 28.—(By the Associated Press)—Vienna, ever a gay city, is now more superficially gay than ever, owing to the illicit traders, who have profited by the war and now are spending their ill-gotten gains, writes a newspaper correspondent from the Austrian capital. Vienna, says one of these writers, is "dying to music." He describes the people as starved and "morally degenerate." Describing the scenes in the dance halls and pavilions and gambling rooms, the writer says that nearly all the people demonstrate a desperate demand for youth and enjoyment and adds that "this sickly whirl of enjoyment bordering on self-destruction" produces a frightful effect on the sober-minded people of the city.

in the Pleasure park and Schoenbrunn where are given plays for children, fire works, alpine dances, Tyrolese clog dances by Berchtesgaden peasants, acts from Iphigenie and band concerts.

One writer says that all of this striving for amusement is only a mask for perplexity and inability to return to older and saner life or evidence of heedlessness and indifference.

Bowman's Sister Located—Mrs. A. A. Kellogg, of Portland, a sister of Judson P. Bowman, the old soldier who was killed by a Southern Pacific passenger train on Tuesday, was in the city today. Efforts to locate any relative had been unavailing but Mrs. Kellogg learned of the accident through a news item in the Oregonian. The funeral was held this morning, Rev. Charles R. Drake and the G. A. R. conducting the service.

THOUGHT THE RUSSIAN REDS WERE AFTER THEM

Three Grants Pass ladies thought the Black Hand gang or Russian Reds were after them this week and had visions of their home being blown to atoms. They moved into a new house a few days ago and yesterday noticed a dangerous looking "implement of death" reposing behind the door at their home. A noiseless retreat was executed and Sheriff Lewis notified. Arriving at the house, the sheriff stepped inside and picked up the dangerous object, the ladies expecting to see him disappear into nothingness at any second.

"This is a railroad torpedo, ladies," said the sheriff, as he carried the thing outside for safer keeping. But it was a close call—the thing might have been an anarchist's bomb. The ladies wish their names withheld, but two of them might be school teachers and the third is perhaps connected with school affairs over the county.

Ham

Honesty

YOU wouldn't give a child a bottle of poison to play with.

Yet when you let a child eat ham that is unreliable you run about the same risk.

Some ham, as you very well know, is not fit to eat. It's not properly cured, and it's kept from rotting by poisonous preservatives barred by the pure food law.

It is your duty to buy ham only where you know you'll get the real article. This is most important. Buy here.

Industries are like orchards

THEY have to be fostered, cared for and encouraged until they get a good start. But once they start to bear fruit, they are the source of wealth and prosperity for all of us. Industries are no longer for the autocrats and the "landed gentry." Fundamentally they benefit the workers—they make jobs—they give us all the opportunity to earn a good living and to advance and prosper in proportion to our ability, energy and ambition. America is a great country because of her great industries. Oregon is rapidly becoming a great state because of her great industries.

Let us—all the people of Oregon—pull together, to make Oregon's industries bigger and better.
