GRANTS PASS, JOSEPHINE COUNTY, OREGON, SATURDAY, OCTOBER 25, 1919.

WHOLE NUMBER 2965.

MANY MINERS ARE COMING TO JOSEPHINE CO.

MEN FROM FRIGID NORTH, FROM MONTANA AND OTHER SECTIONS SEEK NEW FIELDS

MINING PROPERTY CHANGING

Machinery Installed and New Miners' Cabins Springing Up; Pack Trains Busy

That miners from Alaska, Montana and other famous mining regions are turning their attention to Josephine county and Southern Oregon in general, is the news brought back from the Holland and Althouse districts yesterday by M. L. Opdycke, district water master. In the Althouse district, Mr. Opdycke states that he was caught in a snow storm, the snow covering the ground to a depth of about three inches.

Many changes in mining property are reported in the Althouse district. Jess Pinnell has bonded the H. J. Pierson placer property on Althouse creek, near old Brown Town. This is said to be good mining property, and Mr. Pinnell is getting ready for a winter's run on a large scale. Archie Pierce has mining property above Brown Town and also expects to operate this winter.

On the south fork of the Althouse, Messrs. Jenkins and Johnson are installing new size and giants on their property and will mine the place on an extensive scale.

The Wade mining property on upper Althouse is being equipped for mining this winter, and the old Hansen property, now the Masten mine, near Holland, is being prospected by Seattle parties who are considering the advisability of installing a dredger. They now have a crew of men sinking "sample holes" on the property.

W. R. Burner, of Holland, who is in the city today, has, with his associates, purchased the quartz property on Grizzly Gulch and will do some tunneling this winter.

The Harry Skakron property on Sucker creek is in charge of California people, who have installed new machinery and are taking in lumber for bunk houses. This is a quartz proposition.

Many new mining cabins are being erected and two pack trains are busy taking in supplies to the miners. This promises to be a busy season in Southern Oregon mining fields.

HAMPSHIRE SECURES \$300,000 CONTRACT

John Hampshire, of Grants Pass, successful bidder for the contract on the 14-mile unit of the Coos Bay-Roseburg highway in the Camas valley district, arrived here last evening says the Roseburg Review, and went this morning to look over the ground preparatory to starting the work. Mr. Hampshire said that as soon as he had inspected the section of the road to be improved he would employ a force of men to engage in the clearing of the right of way, and select the sites for his camps and the locations for his machinery and equipment which will be installed next spring.

The men engaged in clearing the right of way will continue work all winter, he said, and it is expected the work will be started in earnest as soon as possible in the spring.

The contract was secured on a bid in the neighborhood of \$300,000, and covers eight miles of improvement in the extreme western part of Douglas county and six miles in Coos county, the worst part of the route between this city and Coos Bay.

'MOTHER' JONES CURSES CAPITAL

Preaches Hellfire and Brimstone at Gary; Language Would Shame a Billingsgate Fish Woman

Gary, Ind., Oct. 25.—Declaring herself to be a bolshevik and making the first public appeal for violence since the steel strike began in Gary "Mother" Jones spoke to 1200 strikers and their wives in Turner hall yesterday afternoon following refusal of the authorities to permit her to appear on the platform in East Side park.

Hundreds of men and women unable to enter the packed auditorium were sent home by soldiers who cleared the streets.

"Mother" Jones was introduced by Paul Glaser, a radical leader and attorney for the steel union's council. "So this is Gary," said "Mother" Jones. "Well, we are going to change the name. We are going to call it 'the American city' and we are going to take over the steel works and we are going to run them for Uncle Sam. It's the damned gang of robbers and their political thieves that will start the American revolution and it won't stop until every last one of them is gone."

The aged woman's broadside was received with shouts of approval. "Mother" Jones singled out the women who occupied all the seats on the main floor, holding their babies.

"We don't want any welfare workers, sympathy, Y. M. C. A., churches and charity brigades. Those institutions are built on our backs. We want justice. I'll be 90 years old the first of May but by God if I have to I will take 90 guns and shoot hell out of 'em. For every scab in the mills there is a woman that reared him. Women, the destiny of the working man is in your hands. Clean hell out of every damned scab you can lay hold on. We'll hang the bloodhounds to the telegraph poles. Go out and picket."

"Mother" Jones then lectured the soldiers on guard in the hall. She told them of the profits the steel corporation made while they were fighting in Europe and added:

"You went abroad to clean up the kaiser and the bones of 50,000 of your buddies lie bleaching on the battlefields of France. My God! Ain't you men enough to come over and help us get the kaisers at home? We will have an army as big as yours and you'll be with us and we'll lick hell out of 'em. We'll give Gary, Morgan and the gang of bloodsuckers a free pass to hell or Heaven.

"God Almighty never made a man that could stop a woman from talking," she continued. "You can arrest me, but I'll be free. I can raise more hell in jail than out. If bolshevism is what I understand it to be, then I am a bolshevik from the bottom of my feet to the top of my head."

GOVERNOR STEPHENS CALLS LEGISLATURE TOGETHER

Sacramento, Cal., Oct. 25.—Governor Stephens has called a special session of the California legislature on November 1, for the purpose of ratifying the woman suffrage amendment.

DUTCH BUYERS DO FINE BUSINESS WITH BOCHE

Dusseldorf, Oct. 25.—Along the entire Rhineland-Holland border from Aachen to Cleve the liveliest smuggling of foodstuffs from this year's harvest has been taking place recently and the German authorities have been compelled to take extra precautions in efforts to stop the traffic. By the system of smuggling from Germany into Holland, which has been carried on the Rhinish farmers have been receiving at least double the price they otherwise would receive for their products. The Dutch buyers make handsome profits due to the high exchange value of the gulden compared with the mark.

ENTIRE STATE GUARD OF OHIO WILL BE MOBILIZED

Serious Riots at Canton Alarm Governor Cox--President Summons Special Cabinet Session--Union Labor Threatens General Strike Throughout Country

Columbus, Ohio, Oct. 25.—After receiving reports of serious rioting at Canton in connection with the steel strike, Governor Cox ordered practically the entire Ohio national guard mobilized at Akron, for immediate duty at Canton.

Washington, Oct. 25.—President Wilson, through Secretary Tumulty, has summoned the cabinet in a special session today to consider the strike of the bituminous coal miners called for November 1.

Director General Hines will meet with the cabinet for the purpose of presenting the situation from the railroads' standpoint. Secretary Tumulty represented the president and Secretary Baker presided, but Secretary Lansing is confined to his bed with a cold and is unable to attend. The president is reported to be slowly gaining in strength.

Washington, Oct. 25.—The cabinet this afternoon will formulate a definite program to be placed before the president as to the government's attitude in the threatened coal strike. Senator Thomas introduced a resolution today, calling upon the executive branch of the government to "vindicate the power and majesty of the law" in the strike which would "provoke violence, bloodshed and insurrection."

Washington, Oct. 25.—Officials of the American Federation of Labor said today that the passage by either house of the anti-strike legislation in the impending railroad bill would result in a general strike vote throughout the country.

Des Moines, Iowa, Oct. 25.—Eight of the nine governors of the coal producing states have been asked by Governor Harding, of Iowa, to express their views at a conference at Indianapolis to discuss ways for averting the threatened strike. The governors replied, favoring a meeting, which will probably be held next Wednesday.

TIME CHANGES BACK 12 O'CLOCK TONIGHT

This is the last day of "daylight saving." At 12 o'clock tonight clocks will be turned back one hour. Farmers over the entire nation will probably exult, as they were responsible for the killing of the daylight saving bill by a hard fight in congress.

All trains will leave according to the present time up until midnight, and after that hour go by the old time again.

JAPANESE GENERAL SURPRISES THE DOCTORS

Tokio, Oct. 25.—Field Marshal Count Seiki Terauchi, former premier, whose death was reported, is still alive, his physicians announced today. When the aged diplomat sank into coma his physicians believed death had overtaken him and the news was given the world. Camphor injections given the count as a precautionary measure restored him to consciousness and he was able to partake of milk and ice cream. His death had been officially announced and posthumous honors bestowed by the imperial court.

SEIZURE FILED

The alien property custodian has filed with County Clerk E. L. Coburn a notice of seizure of property. It affects the interest of Selma Braune, of Dresden, Germany, and Lina Kobler and Richard Nikol, of Lammtotzsch, Germany, in some real estate in Josephine county.

removed the immediate danger from Petrograd.

The left flank of Yudenitch's army is under fire from the bolshevik dreadnaught Poltava, in the Neva river and inside the limits of Petrograd. The guns of the dreadnaught are firing over the housetops.

The soviet counter offensive has removed the immediate danger from Petrograd.

The left flank of Yudenitch's army is under fire from the bolshevik dreadnaught Poltava, in the Neva river and inside the limits of Petrograd. The guns of the dreadnaught are firing over the housetops.

RECOMMENDS ARMED FORCE TO GET JENKINS

Washington, Oct. 25.—The state department has demanded that the Mexican government effect the release of William Jenkins, consular agent at Puebla, unharmed, even if Mexico must pay the ransom.

Senator Myers, democrat of Montana, has introduced a resolution asking that the president use all the armed forces of the United States in securing Jenkins' release. He would have those responsible for the kidnapping apprehended and punished.

OLD FRIENDS WELCOMED

Last night at the Coe residence on Washington boulevard 25 to 30 old friends of Mrs. H. C. Kinney and Mrs. L. L. Jewell, who are visiting in the city, had dinner together and spent the evening visiting. Each of the families participating brought contributions to the dinner which was served cafeteria style. Both Mrs. Kinney and Mrs. Jewell were residents of Grants Pass during its earlier days and had an important part in its development. Mrs. E. G. Connor, of Billings, Mont., was also a guest.

WOULD REJECT WILLIAMS

Washington, Oct. 25.—The senate banking committee, by a vote of nine to seven, recommended the rejection of the nomination of John Skelton Williams as comptroller of the currency.

CARRANZA HAS THE POWERS OF A KING

By Decree Has Authority to Postpone Elections at Will; General Obregon Wants the Job

Mexico City, Oct. 25.—The end of the present year probably will see a definite alignment of political parties and presidential candidates in Mexico. The election is scheduled to be held next July. The situation now presents these facts:

General Alvaro Obregon, former right hand man of President Carranza and credited with being the directing military agent who overthrew Villa and made possible a Carranza constitutional government, announced his candidacy several months ago. Although remaining at Sonora he has established political headquarters in Mexico City, has launched a daily newspaper in his behalf and is pressing his campaign so vigorously that both chambers of congress now in session have engaged in heated debates which were in reality intended as tests of Obregon's power in congress. His followers assert they are satisfied with the result. From Sonora he issues manifestos and appeals to the voters. He lays claim to being the leader of the liberal party.

Other possible candidates are General Pablo Gonzales, Carlos Zetina, General Salvador Alvarado, Louje Cabrera, and Ignacio Bonillas, the latter formerly ambassador to the United States.

Newspapers here refuse to be completely assured that elections will really be held. President Carranza by decree has the power to postpone elections and it is within possibilities that he may deem the situation at election time so tense that a test at the polls would be inadvisable.

Sacramento, Cal., Oct. 25.—Governor Ben Olcott of Oregon in a letter received today by Governor Stephens declared he did not see any necessity for calling at once a special session of the legislature to ratify the federal woman suffrage amendment, but if a situation arose whereby the fate of the amendment hung on Oregon he would not hesitate to act.

Washington, Oct. 24.—Four more reservations were approved by the senate foreign relations committee today as part of its new program for qualified acceptance of the peace treaty.

MORE RESERVATIONS APPROVED BY COMMITTEE

Washington, Oct. 24.—Without a record vote the house late yesterday unseated Representative John F. Fitzgerald of Massachusetts, former mayor of Boston, and seated former Representative Peter F. Tague. Both Fitzgerald and Tague are democrat.

UNSEAT U. S. REPRESENTATIVE

Washington, Oct. 24.—Without a record vote the house late yesterday unseated Representative John F. Fitzgerald of Massachusetts, former mayor of Boston, and seated former Representative Peter F. Tague. Both Fitzgerald and Tague are democrat.

STANFORD "U" TURNS AWAY OVER 300 WOMEN

Stanford University, Cal., Oct. 25.—Coincident with the decision of the Trustees of Stanford to charge a \$40 tuition fee, beginning January 1, 1920, the registrar's office at the university published figures revealing the abnormal crowding of the university by students and in particular by students transferring from other universities.

The total registration at Stanford this year is 2420 students as compared with 2035 at the corresponding date in 1915, the year of the heaviest attendance up to this time. More than 300 women who had applied for admission this year were rejected owing to the limit of 500 women imposed by the foundation grant of the university.

Juneau, Alaska, Oct. 25.—Alaska products shipped to "the outside" during August were valued at \$6,572,998, according to the customs house report. More than 7,800 tons of copper were exported during the month to the smelter at Tacoma, Wash.

ISUYS Sucker Creek Ranch

Mr. and Mrs. H. H. Gibbs recently sold their ranch on Sucker creek to Archie Virtue, and expect to leave today for California where they will seek another location. The Gibbs have lived on Sucker creek for many years, and Mrs. Gibbs stated today that this was her first visit to Grants Pass for ten years.

30,000 GIRLS HELD AS SLAVES BY THE TURKS

ARMENIAN GOVERNMENT APPEALS TO RED CROSS TO ARRANGE PLANS

GIRLS SPURN TURK RELIGION

Taken Away During Terrible Massacres of 1918—No Word Received, Believed Slain

Tiflis, Armenia, Sept. 15, via Paris Oct. 25.—Turkish Armenian refugees whose daughters were saved from death for a life of slavery in Turkish harems, have appealed to the American Red Cross for aid in obtaining their freedom. It is estimated by officials of the Armenian government that 30,000 girls are thus held in slavery. An executive committee to arrange plans for their liberation has been named and will start work at once.

These girls, daughters of refugees from the Van and Bitlis regions, disappeared during the massacres of 1918. Nothing was heard of them for months and it was believed they had been slain by the Turks.

Recently pitiful appeals for liberation have been coming from them from the Turkish harems of Anatolia and European Turkey. Most of the girls declare that they have not changed their religion.

Colonel Haskell, high commissioner of the allies to Armenia, has been appealed to for military aid. No definite answer has yet been given but he is hopeful of being able to offer a show of force as a background for diplomatic negotiations. The American Red Cross has been asked for financial backing necessary for the work of liberating the women.

The sale of the H. T. Hull 50-acre farm on the upper river road a few miles from the city was made yesterday to A. B. Eckart of Applegate. This is one of the valuable farms of the valley and has a profitable 10 acre orchard. Mr. Hull owns an interest in the Hull ranch in Jackson county, and they may remove to that place. Mr. and Mrs. Hull have been residents of Josephine county for nine years and have a host of friends here.

HIRAM WANTS REED PRESENT AT VOTING

Washington, Oct. 25.—Hope of a vote today on the Johnson amendment to the peace treaty disappeared when Senator Johnson of California, objecting to the unanimous consent to a roll call before adjournment said he would not permit a vote until Senator Reed, Missouri democrat, absent due to illness, had an opportunity to speak for the amendment.

ALASKA SHIPS OUT 7,800 TONS OF COPPER

Juneau, Alaska, Oct. 25.—Alaska products shipped to "the outside" during August were valued at \$6,572,998, according to the customs house report. More than 7,800 tons of copper were exported during the month to the smelter at Tacoma, Wash.
