ENGINEER SAYS STEEL BRIDGE CAN BE PAVED

JENKINS RELEASED TO HIS ATTORNEY

Prohibition Enforcement Bill Is Passed Over President's Veto

Dry Measure to Become Vote in Senate Being 65 to 20, or Eight More Than The Necessary Two-thirds For Passage

Prohibition enforcement bill was supported by the president of the Senate and two-thirds of the House, but was defeated in the Senate by a vote of 65 to 20.

Washington, Oct. 21.—The prohibitory enforcement bill was supported by the president of the Senate and two-thirds of the House, but was defeated in the Senate by a vote of 65 to 20.

To make it effective, the bill was to have gone to the House of Representatives, where it was to have been referred to committee, and then to have been passed by a majority of two-thirds of the members present.

The action relating to the bill was taken by the Senate, where it was referred to the committee on the subject of prohibition.

The bill would have made it illegal to manufacture, sell, or transport any intoxicating liquor for the purpose of barter or exchange.

The measure was moved by Senator Wilson, of Arkansas, and was seconded by Senator Election, of New York.

One of the members of the committee on the subject of prohibition, who was present at the hearing of the bill, said that the measure was unnecessary.

The Senate, by a vote of 65 to 20, or eight more than the necessary two-thirds for passage, passed the bill over President Wilson's veto.

WASHINGTON, Oct. 21.—General Homes. (Representative of the Conference of the American legislature, and member for the city of New York), has been appointed to the commission to be held in the city of Paris, for the purpose of making a treaty between the United States and France.

The commission is to hold in the city of Paris, for the purpose of making a treaty between the United States and France.

Reims Cathedral Is Not Damaged by German Shells Beyond Repair

Paris, Oct. 21.—After all, the Reims cathedral has not suffered more than a few minor injuries, as reported from the scene of the battle, and as far as we know, it is not damaged beyond repair.

It is not damaged beyond repair.

The damage is not extensive, but it is sufficient to prevent the restoration of the cathedral, which was destroyed in 1914.
