OREGON WEATHER
Probably rain, moderate southwesterly winds.

GETTING ACQUAINTED
Many of Portland's most prominent business men and financiers have been doing business with the people of Southern Oregon for years with only a long range acquaintance with their patrons.

The fiend Johnson who went to the penitentiary this week for the foul murder of his benefactress admits that he would not have been so ready to take human life if the rope had not been taken out of the Oregon law.

It is noted that prospectors and miners from every point of the compass are coming to Josephine county. There is unlimited field here for their activities.

Land values all over the country are rising by leaps and bounds. But the value must be in the land. The day when the buyer can be fooled is

past. In Southern Oregon the way to add real value and boost the price is by adding water. Our soil is one thing that is improved by being watered.

FIRE PREVENTION IS PRESENTED

Continued from Page One.

tive chimneys, etc. In all their work they have had the active cooperation of children and older students. The great majority of fires are the result of carelessness and the boys and girls with prevention information are counted on to reduce the fire hazard.

A special fire prevention film was shown this afternoon at the Oregon theatre, each of the schools attending in a body. The business men of the city are to see the film at 5 o'clock this afternoon.

CLEVELAND POLICE CLAIM BOMB PLOT DISCOVERY

Cleveland, Ohio, Oct. 29.—Discovery of a radical plot to spread terror throughout the nation by another series of bomb explosions next spring was announced by police today following the arrest of five men and one woman, who were suspected of planning destruction of the central police station.

NATIONAL SERVICE FOR BRITAIN'S UNKNOWN DEAD

London, Oct. 29.—A national funeral service and the interment of the body of one unknown British soldier in the crypt of St. Paul's cathedral has been suggested as a fitting tribute to the unknown dead who fell while serving with the British forces in the war. It is recalled that the French have erected a monument inscribed "To the Unburied Dead."

JOE THE TURK WILL BE HERE ON SATURDAY

The Salvation Army national traveling special will arrive in Grants Pass Saturday. Staff Captain J. Garabed will speak on different subjects each evening. He plays the cornet, clarinet, saxophone and Turkish drum, speaks several languages, and wears full Turkish costume. His slogan is "Do what's right, come what may." The staff captain is a Turk by birth. He has been a citizen of the United States for 36 years, Salvationist 35 years, been in jail for Jesus' sake 52 times in U. S. A., and once in Turkey. He will conduct in Grants Pass only three meetings, Saturday, Sunday and Monday evenings, November 1, 2, 3, at the Salvation Army hall. The last evening will be given to the saxophone sacred concert. Offerings will be taken at each meeting for the staff captain's traveling expenses. Admission is free. Meetings at 8 p. m., sharp. You are cordially invited. J. E. Strautin, Ensign.

COLD SNAP CATCHES SPUDS IN MANITOBA

Winnipeg, Man., Oct. 29.—Manitoba has suffered a loss of about 2,500,000 bushels of potatoes, frozen in the ground, which at market prices, \$1.25 a bushel, means a loss of approximately \$3,500,000, according to estimates made here today.

The loss represents from 30 to 40 per cent of the crop. Dealers predict there will be a serious shortage in the province this winter.

Developing a great Principle
LESS FIRST COST AND LESS FUEL
NO PIPES TO HEAT UP AND LESS TROUBLE
MORE HEAT FOR LESS MONEY
This is easy for any furnace salesman to say, but not so easy to prove. We can ABSOLUTELY MAKE GOOD on that statement, because we have secured the agency for the wonderful new system called RADIO PIPELESS HEAT "Nature's Way"

RADIO PIPELESS HEAT "Nature's Way"
As indicated by the illustration, RADIO Engineers have taken the good points, only, from every known system of heating; they have assembled them in perfect combination and called it the RADIO Pipeless System—
Made in the West to Fit Western Conditions
If you have any use for heat—regardless of how you are now supplied—you will want to see the "RADIO" Furnace—you will want to know it—and own it. Everyone who sees it can very soon realize its superiority—and where it has been introduced it has taken the community by storm.
Among the many RADIO PIPELESS Exclusive Features are:
—The one-piece ash-pan of boiler-plate steel, to prevent dust, fumes and gasses from escaping to the room above;
—The extra large oval firebox for fuel up to 24 inches long and
—The water-pan or humidifier, which completely surrounds the firebox to assure ample moistening of the air; moist air at 70 degrees feeling warmer, more comfortable and being more healthful than dry air at 78 degrees.
Call and see it demonstrated—or phone or write for free illustrated folder explaining it in detail. It conveys to you a message that is vital to the Health, Finances, Comfort and Convenience of yourself and family.
