## RELATIVE VALUE OF LAND AND PRODUCT

### Recent Investigation Made by Bureau of Crop Estimates.

There Has Been Much Disparity, First on One Side and Then on Other, Between Two Movements—Farm Labor a Factor.

(Prepared by the United States Department of Agriculture.)

Farm land value has not advanced in the same degree as the composite price of crops and live stock has from the beginning of the war in 1918. Results of a recent investigation by the bureau of crop estimates, United States department of agriculture, revealed that, although farm land value alone gained in 1915 and led in the relative advance in 1916, it lost its lead in 1917 and, moreover, fell far behind the relative gain in the price of crops and live stock in that year and in 1918.

From 1914 to 1915 farm land value, not including that of buildings, increased 11 per cent, while the price of crops and live stock lost 3 per cent. In the following year land value went up 23 per cent above 1914 and price of crops and live stock also advanced, but only by 12 per cent. A reversal of the relative of these movements appeared in 1917, when land value gained only 38 per cent on 1914 and crops and live stock gained 74 per cent. The divergence increased in 1918, since the gain above 1914 was 50 per cent for land value and 97 per cent for crops and live stock.

Farm land value is supposed to be related, at any rate largely related, to the net profit of farming, and in fact it is often somewhat affected even by single years of high or scant profit, yet the value of farm land advanced in 1915, although the price of crops and live stock declined, in comparison with 1914, and gained relatively much more than price did in 1916; but, on the other hand, its relative gain in 1917 and 1918 was far from equaling that of price. There has been much disparity, first on one side and then on the other, between the two movements of land value and produce price.

Perhaps a scarcity of farm labor weakened the demand for farms in the last two years, and perhaps, also, the net profit of farming, because of extraordinary high cost of production, was not as great as the high price of products would indicate superficially.

### SWAT PEDIGREED-SCRUB HOG

Buyers Should See That Animals They Are About to Purchase Have Good Quality.

(Prepared by the United States Department of Agriculture.)

Thousands of purebred scrubs are scattered through this country, according to hog extension men of the United States department of agriculture, who are devoting their efforts to eliminating inferior pedigreed animals. This, they say, applies to all kinds of live stock, but is perhaps more general in the hog industry. Pedigrees are necessary and valuable to the hog breeder, yet the pedigree is the means of fooling a lot of farmers, particularly those

### Hogs Kept Under Clean Conditions, as on Good Pasture, Are Better Able to Resist Cholera and Other Diseases.

who are about to start into the purebred hog business and who have not had enough experience in judging to select animals of good standard type. Buyers should not be contented simply with purebred animals, but should see in addition that the animals they are about to purchase have good quality, say the department hog specialists.

Hogs Kept Under Clean Conditions, as on Good Pasture, Are Better Able to Resist Cholera and Other Diseases.

## THE KITCHEN CABINET

In this existence, dry and wet Will overtake the best of men— Some little shift of clouds 'll shut The sun off now and then;

And mobby while you're wonderin' who You've fool-like lent your umbrella to. And want it—out 'll pop the sun. And you'll be glad you hain't got none! —Riley.

### FOOD FOR OUR GUESTS.

A most wholesome and dainty dessert which is within the reach of all is:

Red Raspberry Lacto.—Take one quart of sour milk or buttermilk, add to it one egg white beaten stiff and a well-beaten yolk, one and one-half cupfuls of sugar and one-fourth of a cupful of raspberry sirup. Freeze as usual, and when half frozen add the juice of a lemon. This may be made with cherries, pineapple, strawberry or orange sirup.

Fruit Coupe.—Scald a cupful of milk, add an egg, two tablespoonfuls of sugar and a pinch of salt, and cook in a double boiler until thick. Set aside in a cool place. When cool, freeze; just before the cream is frozen add half a cupful of chopped pineapple, half a cupful of heavy cream whipped, the white of an egg beaten stiff. At serving time, fill the coupe glasses half full of the ice cream, cover with a spoonful of raspberry sirup and a spoonful of whipped cream and garnish with maraschino cherries and pieces of pineapple. Raspberry sirup may be made from canned fruit, boiling the strained juice with sugar.

Sardine Biscuits.—Make and bake small baking powder biscuits. Split while hot, spread with skinned sardines from which the bones have been removed, then flaked and moistened with the sardine oil. Return the tops to the biscuits, pile on a plate and serve hot for tea or luncheon.

Corn Oysters.—Place a pint of corn on the stove and let it simmer twenty minutes; if too dry, add a little water. Then season with one teaspoonful of salt, one teaspoonful of butter, two tablespoonfuls of milk and pepper to taste. Cool and stir in two well-beaten eggs and a cupful of fresh crisp cracker crumbs, rolled. Put a tablespoonful of bacon fat in a frying pan, and when hot drop in spoonfuls of the batter. Cook until brown on top and brown on the other side.

Calling Card Prices— Printed calling cards 75c for 50; \$1.25 per 100 at the Courier office. Engraved cards per 100, \$3 and up; where plate is furnished, \$1.50 per 100.
