**Why a
Victrola?**

"What artists make records for it?" That indicates the quality of a talking-machine as an instrument—upon that depends the pleasure you will get from it. The Victrola brings to you the greatest artists of all the world—and they make records for the Victor Company exclusively because they are convinced that only Victor Records do full justice to their art; that only the Victrola brings that art into your home in all its beauty.

Language That Will Live.
Language is the vehicle of thought; and the tongue which can most quickly and clearly put that thought across between buyer and seller, between thinker and inquirer, is the language that will prevail. Languages are alive because they have kept up with the march of thought and events; and those that have not are dead.
