

## Life's Harvest Time

Do you know the most profitable time in a man's life? No, it isn't in youth. They say it is from 40 to 60. That's the time when you are supposed to be old enough to have put away youthful dreaming and settled down to business with sufficient experience to be of material benefit to you. It's the time when you will make your stake, the time of your greatest earning capacity. Are you making good? Have you a substantial account at the bank? Are your dollars beginning to work for you? If not, come in and have a talk with us. We may be able to help you. It's never too late to mend.
