

Life's Harvest Time

Do you know the most profitable time in a man's life? No, it isn't in youth. They say it is from 40 to 60.

That's the time when you are supposed to be old enough to have put away youthful dreaming and settled down to business with sufficient experience to be of material benefit to you. It's the time when you will make your stake, the time of your greatest earning capacity. Are you making good? Have you a substantial account at the bank? Are your dollars beginning to work for you? If not, come in and have a talk with us. We may be able to help you. It's never too late to mend.

THE FIRST NATIONAL BANK OF SOUTHERN OREGON

HAVE YOU HEARD IT?

The PURITAN

The "Super Phonograph"

IF YOU do not care for music reproduced upon a phonograph, it is because you have never heard a Puritan. Musicians all over the world have ceased to scoff at what they were pleased to call "Canned Music" after listening to a few selections on a Puritan machine.

The Puritan is unlike all other talking machines in construction and in tone. There can be nothing shallow, or hollow about the tone reproduced by a Puritan because of the long acousticator which carries the sound the entire length of the machine.

The tone of the Puritan machine is sweet and clear. Every word, every note, every inflection of sound, comes to your ear with pleasing distinctness.

If you wish to hear a great singer, or a celebrated violinist, or a selection by one of the famous bands or orchestras of the world just as the music would sound if you were in the presence of the artists themselves, come in and hear the selection on one of our new Puritan machines.
